## About us

Berggren LLP is a law firm specialized in patent prosecution services in the United States. As a member of Berggren Group, we offer services in the high-quality Berggren manner. Our attorneys and agents have expertise and advanced degrees in various scientific fields, including chemistry, biological sciences, mechanics, as well as electrical and computer engineering. We can assist you in all the phases of US patent prosecution. Additionally, if you plan to file your patent application both in the United States and in European patent offices, we can offer you both jurisdictions under one Berggren Group umbrella.
