SMART Controller

The SMART Controller, in conjunction with Kohler EFI - mechanically governed engines, provides improved operator to machine interface. The new designed hour meter with maintenance reminders and on-screen machine health diagnostics, increases ease of operation and reduces downtime.

NEXT GENERATION OF RED TECHNOLOGY

RED Technology, in conjunction with Yanmar Diesels & EFI engines with electronic governors, optimizes engine efficiency, increases fuel efficiency, reduces noise, eliminates governor droop, and provides more responsiveness for a consistently high cut quality.
