or you could flood the pen
with the ink that's in the cap.

Do's and don'ts

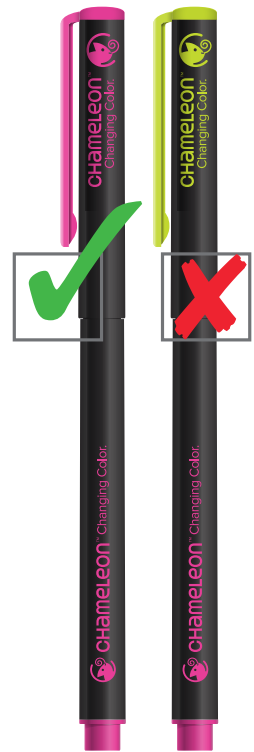

Always store correct color cap with correct color pen. With Chameleon's Dry Safe Ink the cap can be left off for up to 2 days and the ink will not dry out.

Always color out any blended color from the pen tips before recapping for storage.

Cap not donating? Just "recharge it". We recommend "recharging" your Chameleon Fineliner caps occasionally. To recharge; ensure the cap and pen are matching colors. Stand pen upside down (cap at bottom). Leave for at least 15 minutes - then get creating!

After first use - store Chameleon Fineliners flat (horizontally), you can also store your pens upside down to continually recharge the caps!
