

# Expense management is frustrating, but necessary

## For Employees

- Search receipts in Google Drive
- Upload receipts into a shared Google Drive
- Manually change expense data in Google Sheet post review

- Download receipts from Google Drive
- Manually enter expense data in Google Sheet
- Share Google Sheet and Drive folder for approval

**Expense reports don't deserve your employees' time and productivity**

- 20 minutes to complete one expense report
- 18 minutes to correct one expense report

## Hidden costs bite your company's financial health

- 58 USD to process one expense report
- 52 USD to correct one expense report

## For Employers

- Remind employees to submit expenses and receipts
- Manually check for policy violations
- Notify about approval of expense reports via Gmail

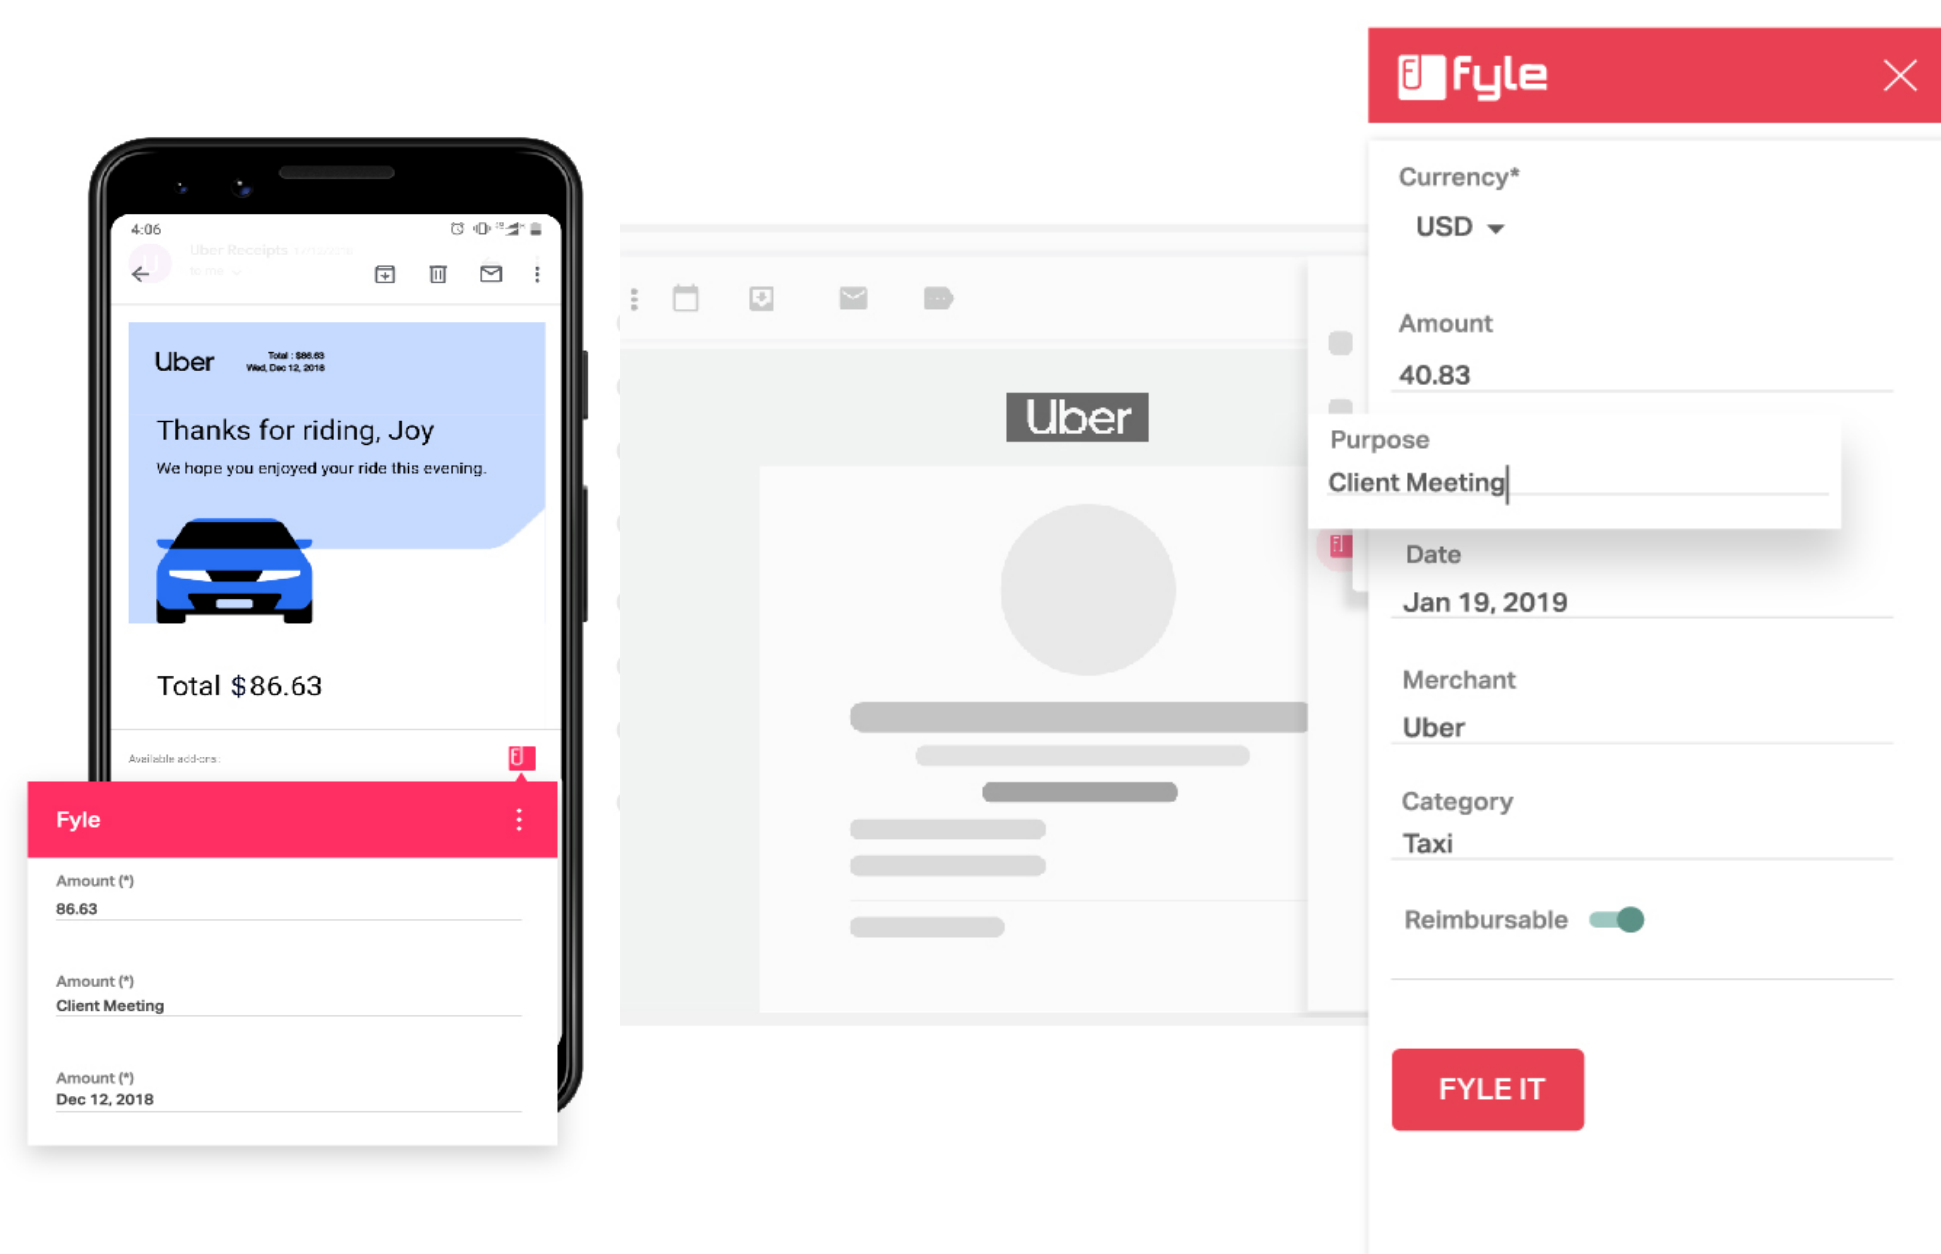

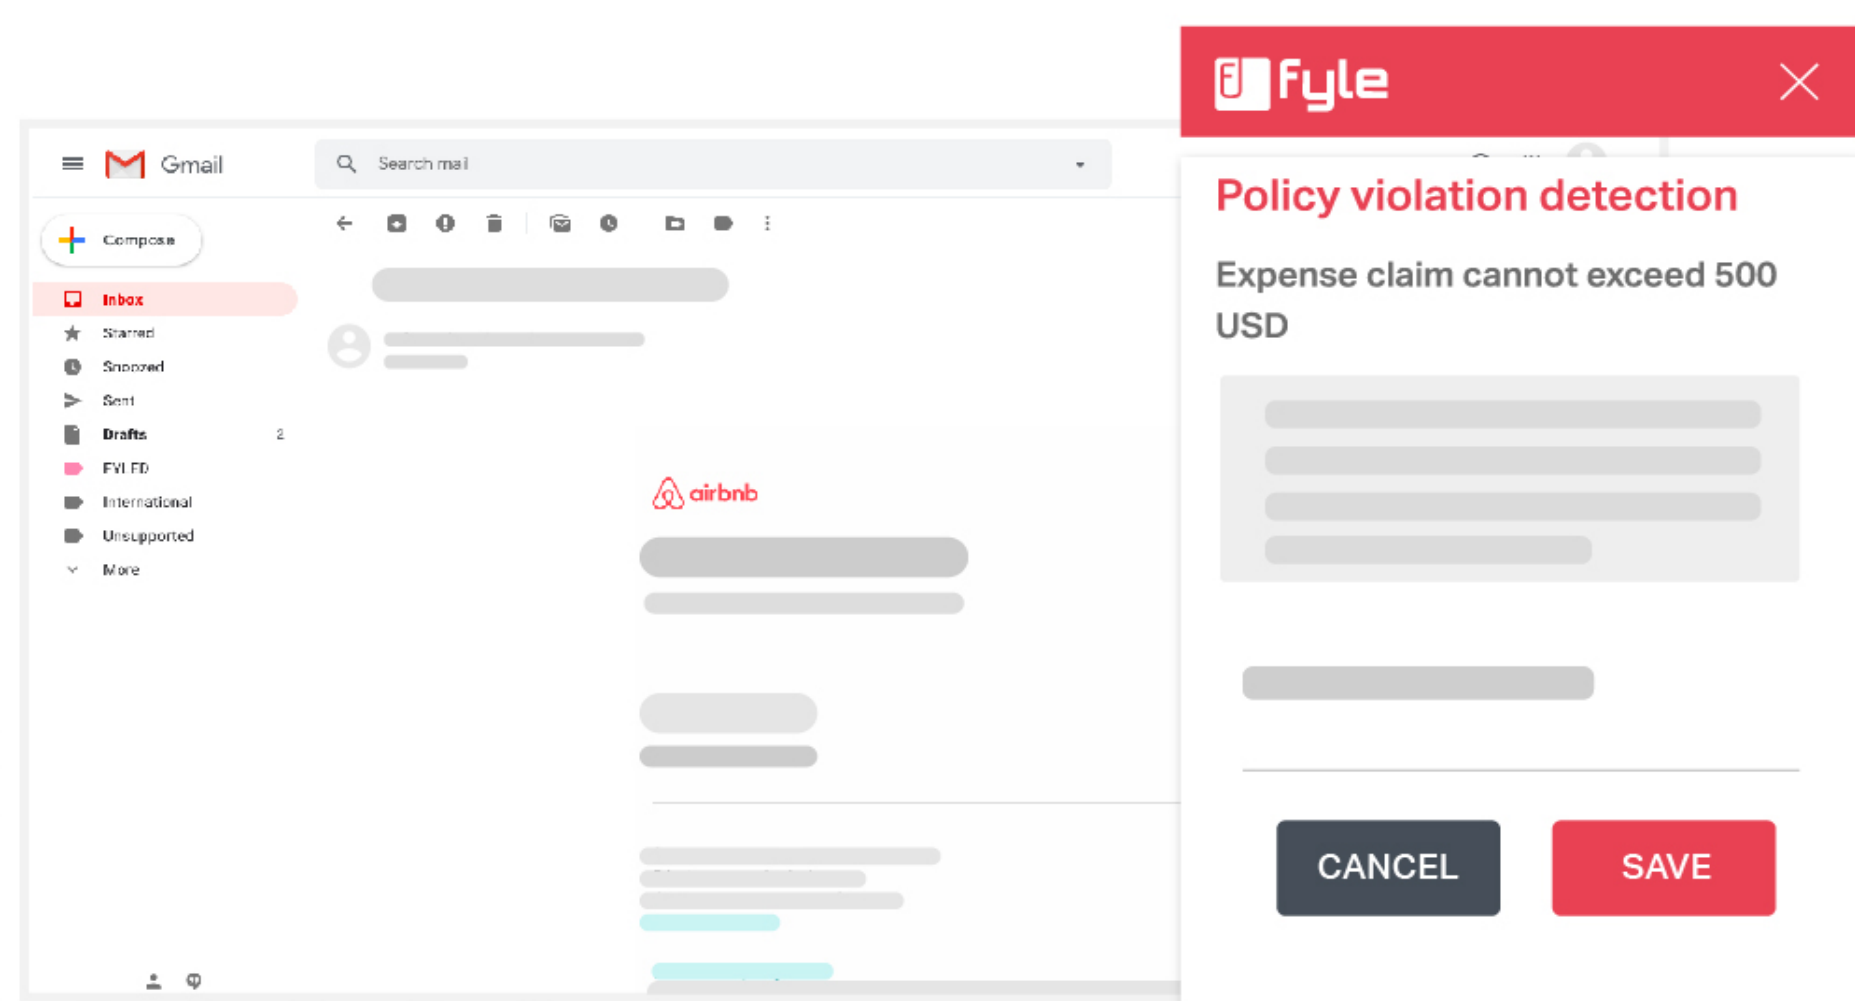

- Manually verify expense amount and receipts
- Manually approve expense reports on Google Sheet
- Manually upload entries into Accounting/ERP systems

# Purpose built for G Suite

## For Employees

- Install Fyle's Chrome Extension or Gmail add-on
- Extracted receipt is attached automatically while submitting an expense

- One-click process extracts all expense data in real-time
- Automatic checks before submission for matched card transactions and policy violations

## For Employers

- Money saved with better enforcement of policy
- Employee expense reporting turns real-time (no reminders needed)

- Time saved by eliminating manual checks and verification
- Differentiated employee experience due to faster reimbursements

**Earned time, saved money, delighted employees and increased financial productivity**
