

WE'RE IMPRESIV HEALTH

We drive business results without unnecessary markups by accelerating time-to-value, helping you get where you want to be.

Impresiv Health is a healthcare consulting firm dedicated to sharing our industry knowledge and hands-on expertise with healthcare organizations like yours to improve performance across operations.

Because our team's experience spans nearly every facet of payer operations, you get faster results, improved communications, and a clear line of how we're going to meet your business goals.

WHY IMPRESIV HEALTH?

Everything we do centers on making a difference for the individual at the point of care, and that begins with our commitment to raising the status quo and differentiating ourselves from all the great companies out there for you to select from. That is Impresiv.

INDEPENDENT HEALTHRULES® TESTING

LEVERAGE OUR EXPERTISE

.....

With a combination of testing assets, expertise, and methodologies, Impresiv Health can accelerate the testing of your HealthRules® functionality and integration. Impresiv's application and software testing services balance cost, speed, and quality while driving HealthRules® implementations, upgrades, or expanding into new lines-of-business.

Impresiv Health provides comprehensive quality assurance services while validating HealthRules® for the effective management of membership enrollment, eligibility, policies, configuration, provider payments, premium billing, claims and benefits.

Our technical expertise in HealthRules® Connector, Custom Integrations via Web Services, EDI, and the HealthRules® Data Warehouse ensures a seamless integration of component systems and proper automation of features like EDI, Data Extracts, ETL for Enterprise Data Warehouses, and standards compliance.

HEALTHRULES® SOFTWARE TESTING SERVICES

.....

- Unit Testing
- End to End Testing (E2E)
- System Integration Testing (SIT)
- Functional Testing
- Database Testing
- Performance Testing
- Content QA Testing
- Support for User Acceptance Testing (UAT)

We help drive timelines when HealthRules® resources and product knowledge are limited.

INDEPENDENT HEALTHRULES® TESTING

CUSTOMIZED FLEXIBILITY

Our unparalleled understanding of both the healthcare industry and HealthRules® products, tools, and accelerators increases the quality of our software testing, resulting in reduced cycle time for upgrades and new implementations.

Our team of testing experts work directly with your team to create a consistent and efficient end-to-end process while providing you dedicated support and seamless feedback. If an issue is encountered, our consultants can immediately step in and utilize their HealthRules® expertise to quickly get things back on track, accelerating your time-to-value.

Impresiv Health's customized programs are able to meet your specific testing needs including same-time-zone requirements, overnight services and other criteria.

Quicker, Efficient, Affordable.
That's Impresiv
