# Why Choose NCG?

*A Guide for Administrators*

For many busy administrators, there's just not enough time in the day to dedicate to medical billing and revenue cycle management on top of juggling the many daily duties that come with office management.

At NCG Medical, we make the headaches of insurance billing and RCM a thing of the past. Our team of certified coders, MBAs and CPAs are knowledgeable with your practice area and your current EHR or practice management software. We'll help change the game for your practice with better efficiencies, money saved and a well-functioning process that will put you at the forefront of your specialty. Here's why we're right for your RCM and medical billing needs:

**We help you save time.**

Between coordinating physician schedules, managing payroll, ordering supplies, managing patient receivables and all the other responsibilities that come with office management, being burdened with insurance billing can often leave you overwhelmed and overworked. Our custom solutions help you save time so you can focus on your daily duties without interruption.

**We’re experienced in your practice area.**

Since 1979, NCG has been providing custom medical insurance billing and RCM for surgery centers, cancer centers, hospitalists, as well as practices in radiation oncology, dermatology, gastroenterology, urology, orthopaedics, family medicine, urology, infectious disease and more.

**We work with your current software.**

When it comes to EHR and practice management softwares, our team has extensive experience with softwares like Allscripts, Greenway, eClinicalWorks, Nextech, Modernizing Medicine and more. Or, if you are in need of a new software altogether, we also offer an easy-to-use program that’s ideal for any medical practice area.

**EHR & PRACTICE MANAGEMENT SOFTWARE**

### We service within your state.

The team at NCG Medical is U.S.-based and serves 46 states across the nation.

### We provide data dashboards.

You don't need a full report on a monthly basis. What you need is quick and convenient access to real-time analytics so you can assess how your practice is doing right now. NCG offers data dashboards that do just that, available on your phone/tablet.

### We offer an investment for your practice.

NCG Medical is more than medical billing and revenue cycle management. We consult with your business to help relieve your individual pain points and ensure no money gets left on the table so you're set up to thrive.
