

Password Reset Instructions

1. Enter your current username and password and select the “Change Password?” checkbox before clicking “Logon”

A screenshot of a web browser showing the login page for Navigator. The browser's address bar displays "First National Technology Solutions, Inc. [US] | https://nav.fnts.com". The page header features the Navigator logo. The main content area is titled "Secure Logon for Navigator by First National Technology Solutions". It contains a "Username" field with the text "jsnow", a "Password" field with masked characters, and a "Change Password?" checkbox which is checked. A red arrow points to the checked checkbox. Below the checkbox is a "Logon" button.

2. Enter your new password twice and click “Logon” to be taken to the two-factor logon screen

A screenshot of the Navigator password reset page. The browser's address bar shows "First National Technology Solutions, Inc. [US] | https://nav.fnts.com". The page header has the Navigator logo. The main content area displays the message "The user triggered to change domain password. Please change the password." Below this message are two input fields: "New Password" and "Verify Password", both containing masked characters. A "Logon" button is located at the bottom of the form.
