

## Join the National Digital Mental Health Revolution

### **Registered Social Worker – BEACON eTherapist (Toronto, Ontario-based, Full Time)**

If you want to grow your professional career in a way that leverages your evidence-based expertise while participating in the future of digital mental health, then join our revolution.

CBT Associates/BEACON is a dynamic organization that specializes in the provision of evidence-based assessment and treatment services. We recently launched BEACON, an innovative digital therapy platform poised to increase access to effective treatment for Canadians experiencing mental health problems.

The delivery and evaluation of mental health services is rapidly evolving from credential-based to competency and outcomes-based. Our clients and other stakeholders are looking for effective evidence-based treatment. At CBT Associates/BEACON we are embracing accountability and empowering our clients and associates by:

- making assessment and treatment more accessible, effective, and affordable
- increasing the efficiency of assessment, triage, clinical decision making and reporting
- providing effective protocol driven Cognitive Behavioural Therapy (CBT)
- facilitating engagement and homework completion
- measuring outcomes, satisfaction and alliance
- stepping up and stepping down care based on patients' needs

---

We're expanding our team of exceptional eTherapists to use BEACON to provide effective assessment, triage and treatment to adults with mood and anxiety disorders. eTherapists working with our Ontario clients will work full-time from our Toronto location.

CBT Associates/BEACON is committed to supporting the continuous professional development of the clinicians in our network. We have an established program of eTherapist training and consultation through individual and group supervision, rounds, seminars, and workshops.

This is an outstanding opportunity to collaborate with a large group of dedicated clinicians and join a digital health care company with continuously expanding opportunities.

### What Makes You a Great Fit for Our Team

You must have a minimum of an MSW and be registered with the College of Social Work in Ontario. Registered Social Workers residing in Ontario and registered in another jurisdiction are also encouraged to apply.

We are looking for people who:

- **Enjoy a dynamic and changing environment.** We are continuously innovating to make mental health treatment more accessible, keep up with the demand for high-quality service, and remain a leading evidence-based practice.
- **Value growth and development.** We embrace accountability, transparency, and continuous learning. We provide regular trainings and workshops. We are looking for someone who shares these values and is excited to share their expertise with our team.
- **Identify as an evidence-based practitioner.** We are committed to CBT and evidence-based practices. Extensive training and experience in CBT is ideal, additional experience or interest in DBT, MBCT, or ACT is highly desirable.
- **Have experience in disability management/return-to-work treatment** and believe that working is an important contributor to mental wellness.

### Compensation

You will be compensated on a salaried basis.

### How to Get Considered for the Role

Please provide a cover letter, curriculum vitae by email to [hire@cbtassociates.com](mailto:hire@cbtassociates.com). Only candidates selected for interview will be contacted.
