

Mosaic
SAMPLE MANAGEMENT SOFTWARE

FreezerManagement

A comprehensive software solution for managing and tracking all types of sample inventory, in any size of organisation

Are you reaching the limits of your spreadsheets?

Are you spending too much time chasing irreplaceable samples?

Are you facing new compliance challenges?

Mosaic FreezerManagement

Mosaic FreezerManagement software helps to track, store and manage any sample type, including small molecules, reagents, DNA, proteins, antibodies, cell lines, blood, serum and tissues.

Manage Any Sample

Over 1 billion samples of all types are being managed by Titian Mosaic software. Here's why:

Storage Tracking

Represent your entire hierarchy of storage including freezers, shelves, cupboards and automated stores

Bulk Import/Update of Samples

Powerful file importing of large datasets including full validation to ensure accurate information

Search and Report on Samples

Flexible query builder lets you choose parameters to create your own searches

Find Freezer Space

Mosaic FreezerManagement can automatically find and assign free spaces to your samples, so you don't have to rummage through your freezer racks looking for empty spaces. And you can make more efficient use of your existing freezers so you're less likely to need to purchase additional ones.

Find Free Space

Automatically find free space for your samples so you don't have to go hunting for it

Track Every Sample

Mosaic FreezerManagement helps to free up scientists from tracking down samples, and allows them to focus on research.

Audit Trail

Automatically track the history of every sample via a 21 CFR Part 11 compliant audit; including who, what and when

Expired Sample Tracking

Track down expired, outdated or redundant samples

Interface with Automated Stores

Automatically monitor and record sample movements into and out of the store

Print Your Labels

Mosaic FreezerManagement's integrated label printing avoids reliance on badly-written labels. Mosaic will track and assign barcodes for you, or you can use your own.

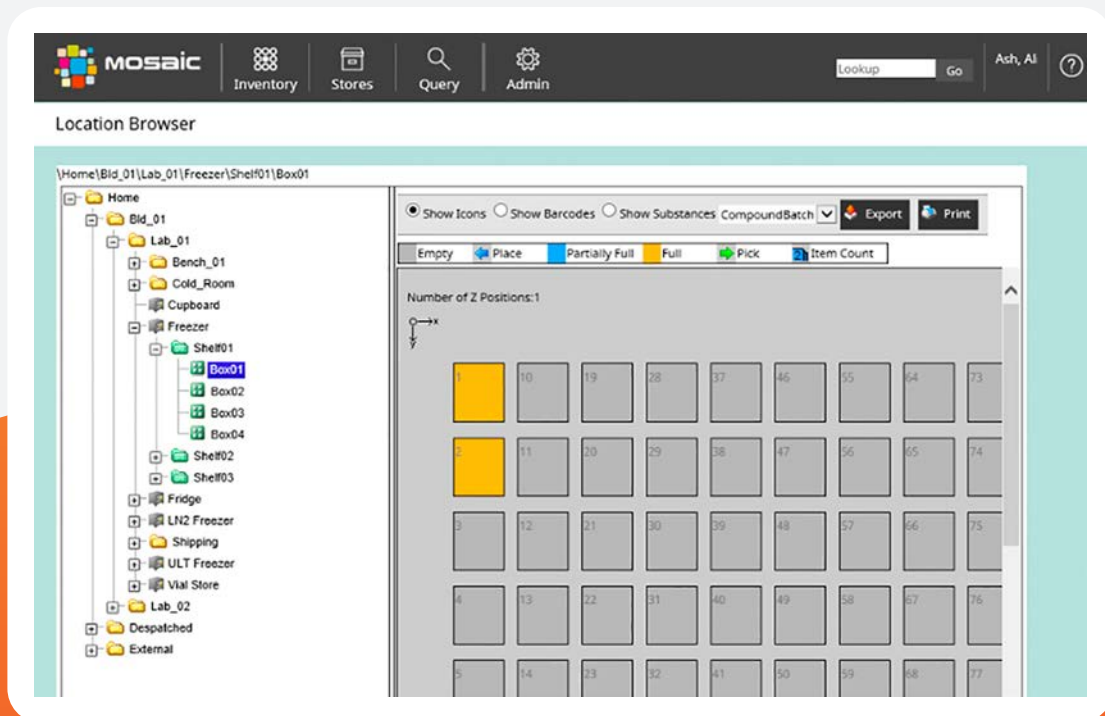

Integrated Label Printing

Define the information to be shown on labels. Print directly from Mosaic with a couple of clicks

Barcode Assignment and Management

Mosaic FreezerManagement maintains barcode sequences for you and guarantees uniqueness

Let Titian's Mosaic FreezerManagement software liberate you from tedious sample management processes!

Mosaic FreezerManagement can help you

Fast Deployment

Mosaic FreezerManagement can be quickly deployed either on-premise, in your cloud, or as Software as a Service (SaaS)

Low Monthly Subscription Cost

A low-cost but effective solution for tracking, monitoring and managing any sample across different types of storage

Scalable Solutions

A pre-configured sample management solution that grows with your organisation to meet future demands
