

Mosaic
SAMPLE MANAGEMENT SOFTWARE

Track and manage
your sample
inventory

 easily

Are you spending too much
time chasing irreplaceable
biological samples?

Are you facing
new compliance
challenges?

Are you reaching
the limits of your
spreadsheets?

You need Titian's Mosaic FreezerManagement - a fully optimised, cost-effective software package for managing and tracking life science samples.

The benefits of Mosaic FreezerManagement include

- ✓ Fast to deploy on the cloud or on-premise
- ✓ Manage and record the details of any sample
- ✓ Know every sample's location and container
- ✓ Easily find free space, rather than investing in another freezer
- ✓ Track down expired, outdated or redundant samples
- ✓ Easily design and print labels with integrated label printing
- ✓ Assign and manage barcodes
- ✓ Free scientists from tracking down samples, and allow them to focus on research
- ✓ Provide a scalable solution able to grow to meet your future demands

**Let Titian's Mosaic FreezerManagement software liberate you
from tedious sample management processes!**

Mosaic FreezerManagement functionality

Titian's Mosaic FreezerManagement software keeps track of samples in freezers and provides a comprehensive audit trail as samples are accessed and aliquoted.

Manage and record the details of any sample

Flexible and intuitive interfaces to define and record properties for any sample type including reagents, DNA, proteins, antibodies, cell lines, blood, serum and tissues

Track all your storage

Represent your entire hierarchy of storage including freezers, shelves, cupboards and automated stores

Find free space

Automatically find free space for your samples so you don't have to go hunting for it

Bulk import/update of samples

Powerful file importing of large datasets including full validation to ensure accurate information

Comprehensive audit trail

Automatically track every sample preparation step via a 21 CFR Part 11 compliant audit; including who, what and when

Search and report on samples

Flexible query builder lets you choose parameters to create your own searches

Integrated label printing

Define the information to be shown on labels. Print directly from Mosaic with a couple of clicks

Assign and manage barcodes

Mosaic FreezerManagement maintains barcode sequences for you and guarantees uniqueness

Interface with automated stores

Automatically monitor and record sample movements into and out of the store
Initiate picking from within FreezerManagement

Since 1999, Titian have been exposed to every sample management challenge faced by pharma and biotech and, working together, have provided trusted solutions that integrate widely with other equipment and software vendors.
