

RETURN TO WORK THE NEW NORMAL

It is still hard to comprehend the enormity of what is an ongoing health, economic and social emergency.

During this lockdown period, WINNS has been working hard to find the best and most innovative solutions to meet the sudden new challenges we and our clients will face over the coming weeks and months.

In consequence, apart from offering disinfection cleans before re-occupying workplaces again, WINNS has sourced a number of products to support your business continuity, which will also offer your employees protection and peace of mind at work and whilst commuting.

Finally, we wish all our clients and their families all the very best during these difficult and uncertain times.

SALES AND MARKETING DIRECTOR

RETURNING TO WORK AND STAYING SAFE

ELECTROSTATIC SANITISING SPRAY SYSTEM

An electrostatic sanitising spray system covers all surfaces and touch points and eliminates all viruses, including COVID 19. It creates a positive charge in the spray gun, which kills the viruses on contact. It also creates a barrier that provides a residual kill protection, which is effective for up to 14 days. As the droplets dispensed are only 40 microns, it is safe to use on electronics and, unlike fogging, which is a targeted method, you don't have to switch off critical systems and it can be applied in normal ventilated systems.

COST £550.00 + VAT | Up to 2,500 Square Feet

- Minimum charge including call-out, specialist equipment, chemicals and labour is £550
- Cost based on premises with an area of up to 2,500 square feet
- Cost for additional area charged at 18p per square foot
- Parking, if not provided on site, charged @ £9 per hour
- Would require 24 hours notice, this can be mobilised at shorter notice, but may include a premium charge.

BENEFITS

- Effective against COVID-19 and other viruses
- Can be carried out in normal working hours and out of hours
- Areas sprayed are fit for purpose 15 minutes after spraying
- Not labour intensive
- Can be sprayed on all surfaces including electrical equipment
- Non Staining and non corrosive
- Streak-free finish
- No set up time

ALSO AVAILABLE

- Office Deep Cleans
- Toilet Deep Cleaning
- Carpet Deep Clean
- Window Cleaning

ENSURING SOCIAL DISTANCING AT YOUR WORKPLACE

- Limit the number of entry and exit points.
- Create a one-way system to encourage people to social distance wherever possible.
- Limit the number of staff, clients and visitors in your building at any one time taking into consideration the layout and size of your building.
- Consider using temporary barriers to encourage people to queue outside appropriately whilst they wait to enter the building.

To achieve the above, WINNS recommended an SIA Licensed WINNS Security Officer to be positioned at the entrances of your building/premises ensure the above guidelines are being adhered to.

WINNS officers are trained in communication, crowd control, defusing potentially volatile situations as well as a keen eye and sense of responsibility.

FOR FURTHER INFORMATION, PLEASE CONTACT ALAN DAVIES WHO CAN ASSIST YOU WITH YOUR PERSONAL REQUIREMENTS. ALAN.DAVIES@WINNSSERVICES.CO.UK OR 07494314110

All prices exclude VAT and delivery charges. All orders can only be confirmed once full payment is received in advance. All stock is subject to availability and may change due to supply chain reasons beyond our control.
