

We are proud of the features of our  
**“Super Insulated” Shell Package...**  
 and we think you will be most impressed!

We provide our Timber Frame homes as a ‘Super Insulated’ shell package using the finest materials available... all the elements that make up the complete shell of your new home, from the top of the foundation to the roof, ready for the shingles. This is our very best building envelope.

## SUPER INSULATED WALL AND ROOF SYSTEM

### FEATURING...

- 9' ceilings
- R31 'Superwall' system of rigid foam insulation
- R38 cathedral roof insulation system
- Aluminum clad exterior, pine interior windows & sliding doors
- Every model comes with one oversized custom pine wood front door

### Don't need that much insulation in your home?

No problem, we still offer a number of other wallpanels to choose from with less insulation for other housing applications.
