PRIMAFAC SETS YOU UP FOR SUCCESS!

✓ **Pinpoint Key Facts and Statements**

Getting up to speed quickly is vital. With Primafact's unique Binder Index and robust text searching you will immediately find anything in your case. Coded analysis allows you to walk-through materials by issue quickly understanding what is important.

✓ **Monitor Case Development**

Cases involve numerous delegated tasks, follow-ups, undertakings and other work. Primafact's robust task management ensures your case is ready when you are. And file review is highly efficient when tasks can be viewed by issue, team member and due date.

✓ **Streamline Document Review and Team Workflow**

Document in-take and review is onerous. With Primafact's dedicated in-take and workflow tools, teams efficiently receive, review and organize high volumes of case materials. Working with external parties is easy too. Primafact's publish feature allows you to efficiently exchange large document sets with experts for review.

✓ **Litigation Support**

From tracking privilege and service to creating witness checklists, managing files behind the scenes is labor intensive. Primafact provides your team with the tools to make these tasks as efficient and cost effective as possible.
