MEMORIALS

The Need to Remember

Memorialization has been a fundamental practice in nearly every society since the dawn of history. Psychologists say that remembrance practices serve an important emotional function for survivors by helping to bring closure and allowing the healing process to begin. A fixed memorial serves as a tribute to a life lived and also provides a focal point for loved ones to honor and remember someone who has passed. It is also a permanent record of history for future generations. Providing a permanent resting place for the deceased whether it be traditional interment or cremation, is a dignified treatment of a loved one's mortal remains, which fulfills the natural human desire and need to remember... and be remembered.

Families can select from a wide variety of colors, designs, shapes, sizes and materials when choosing the most appropriate memorial for a loved one. Keep in mind that cemeteries have rules and regulations concerning the types of headstones they allow. Your Milano Monuments memorial specialists know these guidelines and can advise you through the process so that you can make a selection that honors your loved one, appropriately and is compliant with the rules of the cemetery that will be their final resting place.

Visit our showrooms and let your Milano Monuments memorial specialists show you the broad range of options available.

URNS

Hold the cremated remains of your loved one in an urn and you hold their memory close to you—wherever you may go.

At Milano Monuments, we have a large selection of exquisitely decorated urns in a variety of sizes, shapes and styles. You can find a special place at home for the urn, you can set it by a gravesite, or we can place the urn inside a granite memorial such as a bench or monument or even a natural granite rock or boulder.

OUR REPUTATION OF FAMILY VALUES – AND FAMILY SERVICE

Working with families for more than 50 years, we've observed and experienced the positive impact of memorialization on the healing process. Our business is driven by one emotion – love. It's something we can all use a little more of, particularly in times of sorrow. We express that love in our work, to the families we serve, and our involvement in the community. One such expression is The Lost Hearts Foundation, an organization established by Maria Milano's children in her memory to financially assist young people who have lost parents.
