

A Fast, Easy-To Use Solution For E-Signatures:

The integration of DocuSign with Land Gorilla's Construction Loan Manager™ will enable financial institutions to streamline their construction lending workflows by reducing the friction in closings, improve draw processing times and provide a better customer experience. This turnkey integration means the signature process is reduced to hours instead of days.

Send or create documents directly from Land Gorilla's Construction Loan Manager™ to multiple users for signing using DocuSign.

- ✓ Send documents directly from the Construction Loan Manager
- ✓ Store e-signed documents in your loan's Document Center
- ✓ Reduce signature processing times - go from days to hours for the signature process
- ✓ Single authentication expedites user login experience
- ✓ Increase customer satisfaction by integrating e-signatures to process

80%

of transactions are completed via DocuSign in less than one day

Seamless Integration

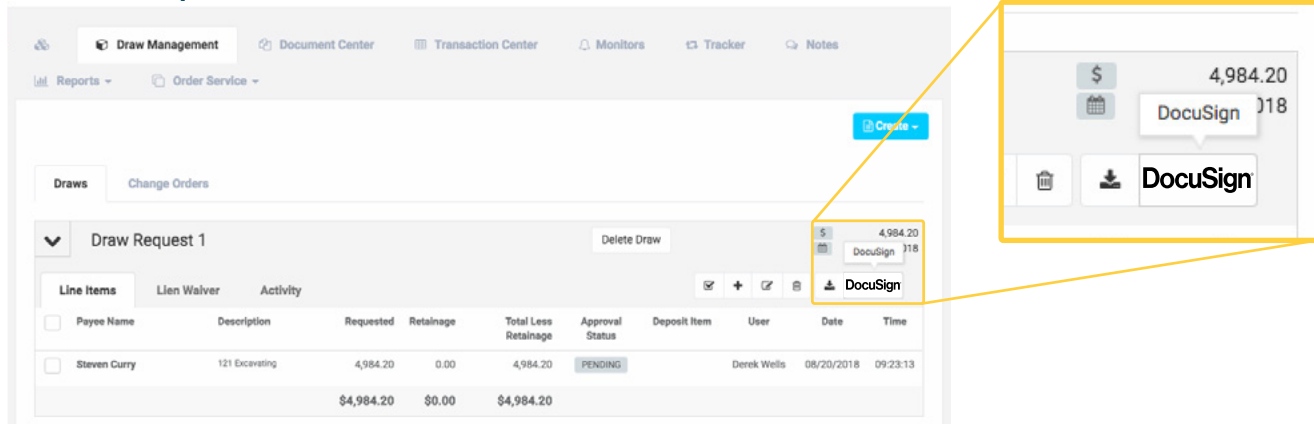

Faster Signature Process

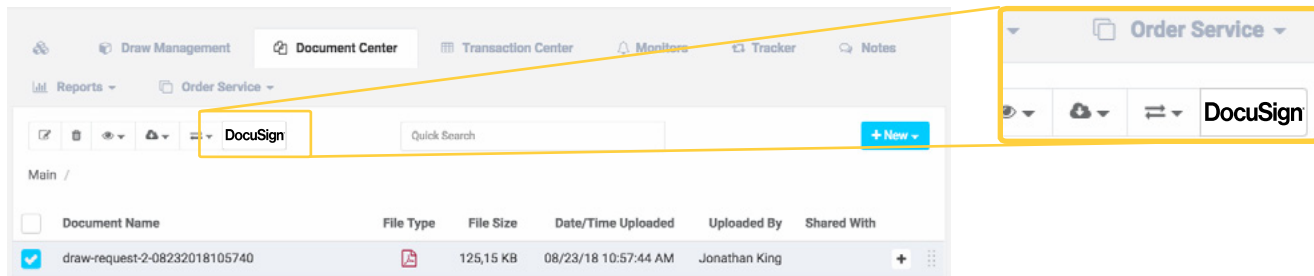

Better Customer Experience

Initiate e-Signatures from 3 areas:

1. Draw Request

2. Existing Document

3. New Document

Land Gorilla, Inc is the #1 financial technology provider of construction loan management software creating a fast, safe, and efficient loan process. Trusted by top lenders, Land Gorilla's Construction Loan Manager™ streamlines every aspect from pre-closing due diligence to post-closing draw administration, providing scalability, minimized risk, cost savings, and a best-in-class experience to project stakeholders.
