Title: Business Intelligence Developer

About Protecht:

Protecht's mission is to assist our client's in the achievement of their objectives through better risk based decision making. Protecht is a leader in the delivery of risk management training, advisory services and enterprise risk management software and has been operating since 1999 in Australia and New Zealand. Protecht is committed to diversity and inclusion.

About the Role:

Protecht is seeking a Business Intelligence Developer to join the BI and Analytics team.

We have an opportunity for someone who is motivated, professional and committed to delivering high quality Business Intelligence, analytics and design solutions to join our innovative team.

The focus of the Role and the Team is the development and management of Business Intelligence and Analytics to support Protecht's core software Risk Management best practices.

Key accountabilities:

The primary goal of the role is to produce Business Intelligence, analytics and design solutions to our clients. Responsibilities include but are not limited to:

- Providing innovative solutions to the existing suite of Protecht.ERM dashboards and reports to meet client needs
- Working with Business Intelligence tools to produce interactive dashboards and reports to enhance our products and to meet client requirements
- Contribute to product styling for both web and mobile interfaces

You must have:

- The ability to work in a small team using an Agile environment
- Skills and experience in Business Intelligence and Data Visualisation
- The ability to deliver high quality solutions to our clients
- Experience in SQL, Databases and data structures
- The ability to think outside the box with a desire to learn and improve
- Basic programming skills
- Problem solving and analytical skills
- Outstanding communication and interpersonal skills. Be a people person, someone that gets the best from those around them and the ability to self-motivate
- Excellent English language and grammar skills

You must be:

- An Australian citizen or have a demonstrated right to live and work permanently in Australia
- Passionate about problem solving
- Committed to quality and continuous improvement with an attention to detail
- Capable of producing professional output

It would be great if you also had:

- Demonstrable interest in Risk Management

- Knowledge and interest in the area of Data Science

To apply for this role:

- Go to our website https://www.protecht.com.au/about/work-with-us and complete the "I want to join the team" form. To be considered for this role when completing the form please enter the word "AlfaRomeo" In the "How did you come to hear about Protecht" field.
