- When a prospective student contacts New Horizons Career Development Solutions to inquire about our training, an Education Advisor will discuss our offerings with the student and an invitation is extended to attend an evaluation class and a tour. This evaluation class is generally a 4-hour Software Applications class. The evaluation class allows the student to sample a half a day of training without any further obligation.
- An Education Advisor will meet with the student to discuss their individual training interests. An appointment will be made to take the entrance exam. The Education Advisor will discuss the exam results with the candidate. It is determined at this time whether a student has the required prerequisite knowledge, and ability to be successful in the chosen program.
- An interview may also be used to determine the viability of a candidate. A member of our management team conducts interviews. *Additional interviews may be required in certain situations.* Student interviews assess employment history, educational background, and relevant skills. Interview results are used to determine the candidate's ability to be successful in the desired program. Upon successful completion of assessments and interviews, a candidate may request enrollment.
- All enrolling students will read and sign a *Contractual Enrollment Agreement*, and the *Students Right to Cancel Notification along with reviewing the School Performance Fact Sheet*. These documents outline the items included in the program, cost, cancellation grace period, withdrawal, and refund policies.

- Classroom accommodations are not retroactive, but are effective only after the request has been made, the documentation has been received and the school has had an opportunity to address the request and/or accommodation. Therefore, if you have a disability, it is your responsibility to seek available assistance and make your needs known at the time of enrollment or as the need arises due to disability. Students are encouraged to request accommodations as early as feasible with the school to allow for time to gather necessary documentation and consider reasonable accommodations. Students cannot wait until after completing a course or activity or receiving a poor grade to request services and then expect a grade change or opportunity to retake the course.
- Although accommodations cannot be provided which would fundamentally alter the nature of the program, cause undue hardship on the school, or jeopardize the health, safety or learning environment of others, reasonable accommodations can be provided to specifically address the fundamental limitations of the student's specific disability.

## Program Refund information

You may withdraw from a program after instruction has started and receive a pro-rata refund for the unused portion of the tuition and other refundable charges. To determine your refund you would deduct a registration fee of seventy-five dollars (**\$75.00**) from the tuition charge. You would then divide this figure by the number of hours in the program. The rate is the hourly charge for the program. The amount owed by the student for the purpose of calculating a refund is derived by multiplying the total hours attended by the hourly charge for instruction plus the amount of the registration fee and the documented costs of any books or equipment that were not returned. *For example if the student completes only 10 hours of a 40 hour course and paid \$400.00 tuition, and a registration fee of \$75.00, the student would receive a refund of \$300.00. (\$475.00 total fee, less the registration fee of \$75.00, divide this by the 40 hours of the program, this will give you the hourly rate of \$10.00 per hour). Multiply this rate times the hours completed 10 hours completed x \$10.00 per hour, totaling the \$100.00 for the tuition charge. This charge plus the registration fee would be deducted from the amount paid. Total paid \$475.00, less registration fee \$75.00, less tuition charge \$100.00 refund paid \$300.00.*

### Individual Class Refund Information

You may withdraw from a class after instruction has started prior to completing more than 60% of a course and receive a pro-rata refund, less a \$75.00 application fee, based on the percentage of the course that you completed.

If New Horizons Career Development Solutions provided supplies, manuals, or other equipment for classes not attended, you must return these items within Five days of the date of the cancellation notice. If you do not return these items within this Five day period, New Horizons Career Development Solutions will withhold an amount equal to the cost of the items not returned. New Horizons Career Development Solutions is required to refund any amount remaining as provided in the Refund Agreement.

If you have any questions or need further clarification, please contact your Education Consultant at New Horizons Career Development Solutions.

## Veteran's Refund Policy

New Horizon CLC's Veterans Refund Policy complies with CFR 21.4255. In the event the veteran or eligible person fails to enter the course, withdraws, or is dismissed at any time prior to completion, any unused portion of tuition, fees, and other charges is refunded. Any amount in excess of \$10 of the application/registration fee is subject to a 100% pro-rata refund policy. The amount charged will not exceed the exact pro-rata portion of total charges. The length of the completed portion of the course will be prorated over its total length, and the exact proration will be determined by the ratio of the number of days of instruction completed by the student, to the total number of instructional days in the course. Refunds are made within 40 days of the last date of the student's attendance.
