

Get the most of out of your Hosted PBX by unifying your communications with Office 365 and Skype for Business Teams. Save countless hours by working and communicating from the same platform, with your Microsoft Office workplace and email, calling and video conferencing all available in one place.

If you are already on IP Telecoms HostedPBX the cost per user will be an additional €4.

Depending on what plan you are on with Microsoft there may be an additional cost per user required in order for you to enable Skype for Business/Team.
