

ATTENDANCE MONITORING Through TritonWear

Monitoring practice attendance:

- ★ Improves athlete accountability
- ★ Encourages better attendance

But taking attendance adds to coach's already full plate.

How to Monitor Attendance w/TritonWear

For convenient access to a complete attendance record.

TRITONWEAR LIVE

See a list of all your athletes (or by Training Group) outfitted with their Triton units during practice, on your tablet - even latecomers!

TRITONWEAR INSIGHTS

PER DAY/ SESSION

On coach's Workouts Results page, see a list of dates, times, and number of swimmers in attendance for all recorded workouts.

Click on a day or session to see all the athletes who were present at that practice.

PER ATHLETE

On athlete's Workouts Results page, see a list of all their recorded workouts, including the sets they completed for each session.

Incomplete sets will inform you if they left early or arrived late to that practice.

ON LOAD MONITORING PAGE

See a list of all your athletes and view attendance, along w/ athlete's load numbers, on a weekly capacity.

For a given week, days that contain either a load number or N/C are the days in which an athlete has a recorded workout.

MANUALLY ADDING WORKOUTS

Record attendance for all practices not tracked w/ TritonWear (including training done outside the pool) on Insights.

On Workouts Results page, click on Add Workout and input the information for athletes who completed the workout.
