TITLE DATA and AUTOMATION

# ONBOARDING CUSTOMERS IN TITLEFLEX

Rev. 20200819

**NOTE:** Provisioning for TitleFlex is supported by the existing DataTree administration application; consequently, the provisioning screens will show references to the DataTree product.

## OnBoarding Customers in DataTree and TitleFlex

This guide will focus on the required steps to bring a new customer online in either platform along with notes on specific options for DataTree and TitleFlex users. The same Administration tool will provision either platform.

## Before You Begin

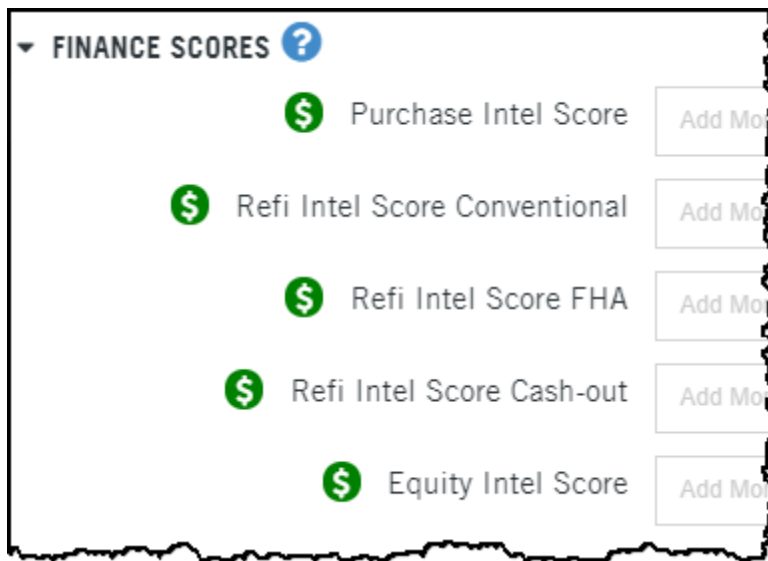

Services and features may be set for customers as follows:

<input checked="" type="checkbox"/> Batch Ordering	Product available and orderable in the left-hand panel of DataTree.
<input type="checkbox"/> Batch Ordering	Available for your contract but not enabled for your end-users. Click to put a check in the box and enable it for your users.

In Product:

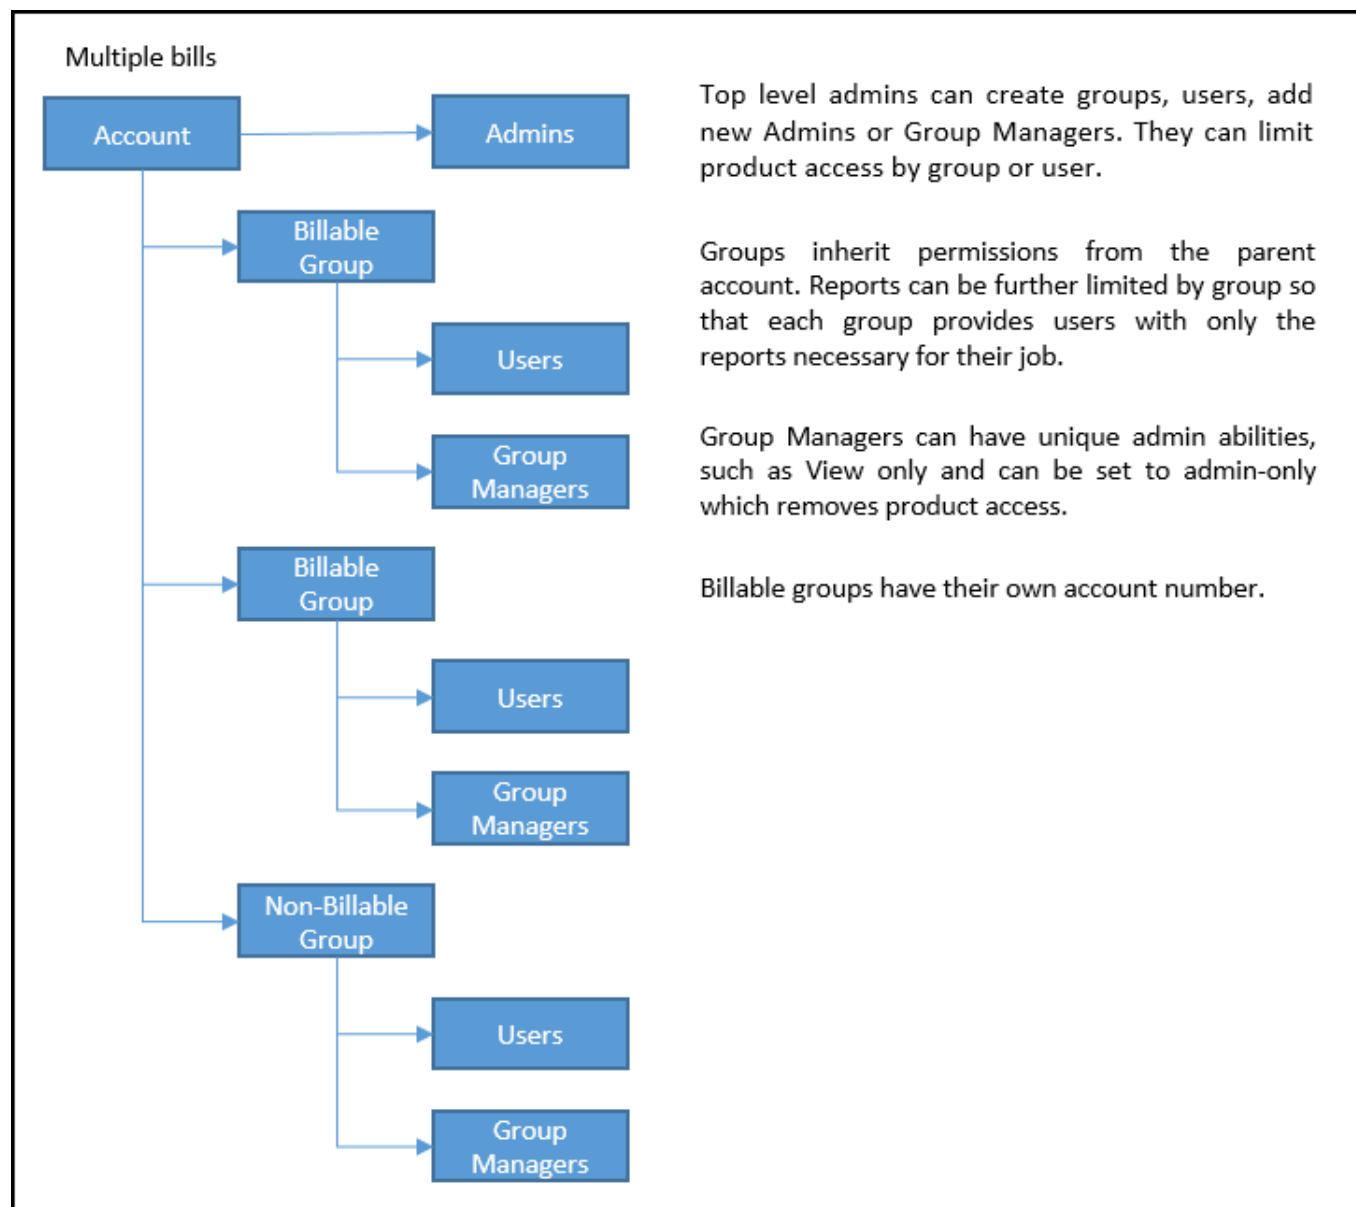

<input checked="" type="checkbox"/> Neighbors Report	<p>Report is visible and can be ordered.</p> 
<input type="checkbox"/> Neighbors Report	<p>Report is visible but cannot be ordered.</p> 
<input type="checkbox"/> Neighbors Report	<p>Report is not visible.</p> 

Some Advanced Filter options in the platform will be denoted with a dollar sign, as shown here:

These are premium filters and carry an additional per-record charge above the Property List charge. These are provisioned separately. In platform, the user will receive an additional dialog box warning them of the additional charge.

The platform allows the use of billable groups for situations where large clients need the individual business units to manage their own billing. It might be helpful to provide a graphic to describe how users and groups may be used in DataTree.

Note: Unique groups are not required. The scenario above depicts a situation where a customer may want unique groups that require their own billing.

The end of the manual includes an appendix on setting up the account for billable groups.

## Creating New Accounts

The Internal Admin includes the ability to create an electronic EULA, provision companies and the client administrator, create trials, and (for sales approvers) approve custom pricing.

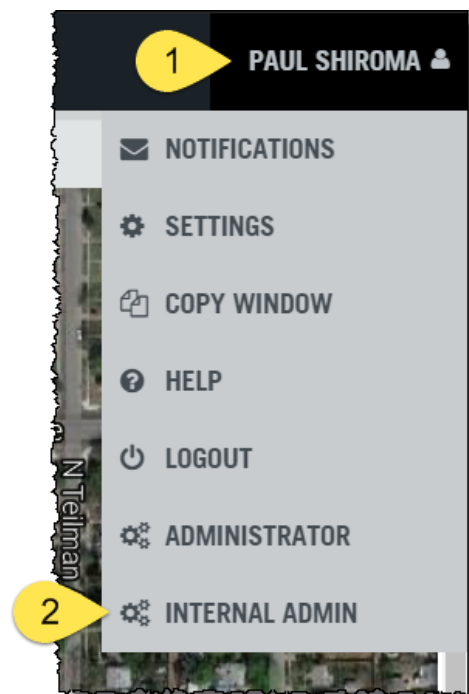

### Overview

There are five general steps to provisioning a customer:

1. Enabling platform access
2. Enabling report access and pricing
3. Entering the client's company information, the company administrator, and your information
4. Securing custom pricing approval (only required for custom pricing from step two)
5. Client accesses platform

The document will review each step.

To access the Internal Admin features, log into the new DataTree.com, click the Administration Icon and then click Internal Admin.

Note: This manual starts with provisioning a customer without billable groups. See the Appendix on setting up billable groups.

---

## Enabling Platform and Search Access.

Click Create Customer to begin the process.

### Geographic Access

Leave Nationwide selected, as shown.

**GEOGRAPHIC ACCESS**

☒ Nationwide      ☐ Statewide      ☐ County-Level

### Authorized Services

**DELIVERY PLATFORMS**

☒ DataTree      ☐ TitleFlex  
☒ Web      ☐ XML      ☐ DTAPI

The first choice in the Authorized Services section is the most important as it sets up the application for either Title customers or non-Title customers. Select DataTree for non-Title customers or TitleFlex for Title Customers.

Next, enable or disable the following options. Recommendations for DataTree and TitleFlex are in the right-hand columns.

Feature	Description	DataTree	TitleFlex
1. Property Detail Auto Load	Auto-loads the Property Detail Report when a property is selected. <u>This incurs a charge.</u> Do not enable unless specifically requested by the client.	Disabled	Disabled.
2. CRM	Basic contact management functionality for Title customers	Disabled	Enabled
3. One-time Editing	Allows temporary changes to the Property Detail Report for printing purposes only.	Disabled	Enabled
4. Batch Ordering	Ability to run multiple addresses for reports and data appends..	Enabled	Enabled

AUTHORIZED SERVICES	
<input checked="" type="checkbox"/> Property Detail Auto Load	<input type="checkbox"/> CRM
<input type="checkbox"/> One-time Editing	<input checked="" type="checkbox"/> Batch Ordering

Screenshots of where the features in the table above show up in the platform follow.

Property Detail Autoload (1) and One-Time Editing (3):

CRM (2) (for TitleFlex):

Batch Ordering (4):

## Interface Access

Leave this as Web so that the customer can access DataTree or TitleFlex through a browser.

**DELIVERY PLATFORMS**

☒ DataTree
 ☐ TitleFlex

☒ Web
 ☐ XML
 ☐ DTAPI

---

## Provisioning Basic Reports

The pricing is broken into two parts: The Monthly Pricing Plan and feature access and their prices.

### Monthly Pricing Plan:

Leave Monthly selected. No prepaid plans are available for new customers.

The screenshot shows a form for provisioning basic reports. It includes a 'Plan Type' dropdown menu with 'Monthly' selected, a 'Billing Method' section with 'Credit Card' selected, and a table of pricing options. The 'Custom' plan is selected with a text input field for pricing. The other plans are Plan 1 through Plan 5, each with a fixed price.

Plan Type	Billing Method	Plan	Price
Monthly	Credit Card	Custom	<input type="text"/>
		Plan 1	\$99.00
		Plan 2	\$200.00
		Plan 3	\$500.00
		Plan 4	\$750.00
		Plan 5	\$1000.00

Next, select a monthly commitment plan (Custom or plans one through five) in the radio buttons at right. Selecting the Custom plan will allow you to setup a unique monthly minimum amount and specific report pricing. This will also trigger the system to send an email to your managed and the Finance team to approve your custom pricing. The client will not be able to access DataTree until all approvals are secured (described later in the document).

**NOTE: Certain sales teams may require the credit card or prepay methods. If in doubt, check with your sales manager.**

**You may select Credit Card or Prepaid under the following circumstances:**

- Select Credit Card ONLY if the client admin has credit card authorization. At first login, the system will require the client admin to enter the company credit card to complete the setup.
- Select Prepaid ONLY if the customer has already provided credit card authorization for a fixed amount credited to their account. All activity is drawn against that prepaid amount.

## Features and Pricing

After selecting a monthly plan, you have the option to change the pricing for an individual report. If you select Custom pricing, you must manually enter all price points.

Complete the following sections: Recorded Documents, Property Reports, Property Lists, AVM Reports. Flood, Appraisal & Valuation, Property Ownership (O&E) and Fraud & Verification. Flood, Appraisal & Valuation, Property Ownership and Fraud & Verification require a hard-copy contract. See the Appendix: Managed Services Products for more information.

Click the section headers in the left-hand frame to switch to those sections and modify their options. If you need to change a per report price, click in the blank text box to the right of the report name and enter the custom price.

Figure One: Recorded Documents Screenshot:

The Assessor Maps (De-Duplicated): Enable for all customers. This will ensure that a user is not charged for multiples of the same assessor map when ordering lists of properties that all fall in the same map. Make sure that the price inserted here is the same as the Assessor Map price in the Recorded Document section.

	PRODUCT								
Recorded Documents Enable All	<input type="checkbox"/> Last Transfer Document	County Pricing		\$10.00	\$5.00	\$4.75	\$4.50	\$4.50

**Figure Two: Property Reports Screenshots:**

**Notes:**

Packages: Enable for TitleFlex customers. It is a service specific to the title industry. Optional for all other customers.

Quick Docs: Leave disabled. This is a custom service specifically for certain lending customers and is not to be used for anyone else.

Tax Source: For clients configured with automated-only counties, select **Tax Source (Automated.)** For clients that include manual counties, select **both TaxSource (Automated) and TaxSource**. If a client has negotiated a SOW for a single rate for auto and manual, use the **TaxSource Blended** option. Pricing for all three is configured at the state level.

	<input type="checkbox"/>	Title to Lender Intersect...			
	<input type="checkbox"/>	Lender to Title Intersect...			
	<input type="checkbox"/>	Loan Officer Share			

The **Market Share Reporting** option needs to be enabled for the user to have access to any of the reports/exports. There are three provisioning “states” for MarketView:

1. Disabled: the Market Share Reporting box is unchecked.
2. Promotional/Marketing: The Market Share Reporting box is checked, and all others are unchecked.
3. Enabled: The Market Share Reporting box is checked and at least one export/report is checked.

Users will need to be provisioned by State/County using the **Counties** link in accordance with their contract.

The selections enabled in Authorized Services and in Figures one through six affect what is available in DataTree, generally shown here.

## Company Information

<b>INFORMATION</b>			
Username	<input type="text" value="Username"/>	<input type="checkbox"/> Hard copy agreement executed	
Company	<input type="text" value="Company"/>	Address 1	<input type="text" value="Address 1"/>
First Name	<input type="text" value="First Name"/>	Address 2	<input type="text" value="Address 2"/>
Last Name	<input type="text" value="Last Name"/>	City	<input type="text" value="City"/>
Title	<input type="text" value="Title"/>	State	<input type="text" value="State"/>
Email	<input type="text" value="Email"/>	Zip	<input type="text" value="Zip"/>
Bus. Unit	<input type="text" value="Select One"/>	Sales Rep	<input type="text" value="Select One"/>
		Industry	<input type="text" value="Select One"/>

Enter the following information:

- The username will be the client's administrator account.
- All customer information.
- Business Unit: Select your unit. (e.g. DBS, FAMS or Interthinx.)
- Sales Rep: This is dependent upon the Business Unit selection. Your name will not appear unless you select your Business Unit.
- **NOTE: Selecting your name affects two things:**
  - Your commission (make sure your name is entered).
  - You will be CC'ed on the system correspondence to the customer, so you know when emails go out.
  - Complete the Industry

**NOTE:** "Hard copy agreement has been executed" is disabled by default, meaning the customer is going to accept the online EULA (a click-thru). If the customer is receiving a hard copy agreement for wet signature, enable this option by clicking the checkbox.

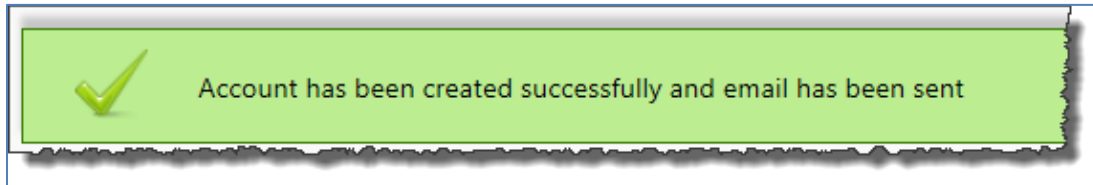

<b>INFORMATION</b>	
Username	<input type="text" value="Username"/>
	<input type="checkbox"/> Hard copy agreement executed

They must still accept pricing. See the Client Experience Section (following) to see how this choice affects the client administrator's first login.

Click Save at the bottom of the form:

If you have correctly entered all required fields, you will receive the following confirmation:

If there is a missing field, you will receive the following message. Please correct the highlighted fields.

Example:

A form with two rows. The first row has the label 'Address 1' followed by a text input field containing 'Address 1'. The input field is highlighted with a red border. A purple arrow points to the red border. The second row has the label 'Address 2' followed by a text input field containing 'Address 2'.

The highlighting is a bit faint so look carefully.

---

## Client Accesses Platform:

The client administrator will receive two emails, one with their username (that you entered in the company information section) and one with a system-generated password. See Appendix items one and two for copies of the emails. At their first login, the client administrator will have a slightly different experience based upon the following:

### Hard Copy Agreement has NOT been executed:

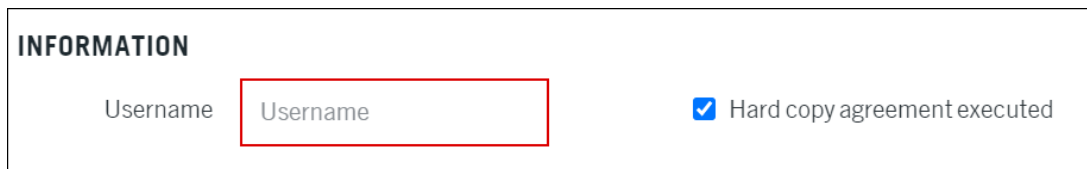

The screenshot shows a login form with the title "INFORMATION". It contains a label "Username" followed by a text input field containing the word "Username". To the right of the input field is a checkbox that is unchecked, with the text "Hard copy agreement executed" next to it.

If the option shown in the screenshot is disabled (red x), at their first login, the client will be:

- Prompted to change their password
- Accept the EULA
- Accept pricing

This is the default. A PDF copy of the EULA is in the Appendix at the end of this document.

### Hard Copy Agreement HAS BEEN executed:

The screenshot shows a login form with the title "INFORMATION". It contains a label "Username" followed by a text input field containing the word "Username". To the right of the input field is a checkbox that is checked, with the text "Hard copy agreement executed" next to it.

If the hard copy agreement has been executed is enabled, as shown here, the client administrator will:

- Not be presented with the online EULA
- Have to accept the pricing.

Once the client administrator has accepted the pricing (and EULA per the first option), you, your sales manager, and the customer will receive a confirmation email (along with a pdf version of the EULA per the first option).

See the appendix for a copy of the confirmation email.

## Sales Approval

**NOTE:** This process is only required when custom pricing has been entered and will be completed by approver staff (e.g. Finance, Management, etc).

The Sales Approval section allows the designated manager to approve custom pricing. This manager will receive an email informing them that their approval is required. See Appendix Item Five for an example of the email.

## Pending Approvals

The designated approver can log in to DataTree.com directly from the email and access the Sales Approval form through the Internal Admin

HOME	CREATE CUSTOMER	TRIAL GENERATOR	CUSTOMER SERVICE	ENTER	1	SALES APPROVAL	CACHE REFRESH	BATCH ORDER
Company	Account #	Name	Status	Date	Requester	Division	Edit	Cancel
7686	2001080		New	10/17/2013	vrao	DBS	Edit	Cancel
veshwarCL	2001092		New	10/21/2013	eshwar_del_63...	DBS	Edit	Cancel
fai	2001093		New	10/21/2013	vrao	DBS	Edit	Cancel

## Appendix One: Managed Service Products

These products require an executed hard copy master licensing agreement. ELS provisions all managed services products accessed in DataTree and require a separate account in the ELS systems. Pricing is in the MLA and is not part of the DataTree Admin Tool.

### Overview:

Provisioning Managed Services products

1. Salesforce Account Setup: Create a new Account Setup Request for the customer account.
2. DataTree Admin Tool: Create a new customer account or update an existing customer account in DataTree and provision the products on the customer contract.
3. Verify that the Managed Services approval process has completed, and the products are available for your customer to order from DataTree.

### Notes:

- Managed Services products are setup in parallel to setting up the customer in DataTree. You do not have to wait to complete the Managed Services contact to provision a customer in DataTree.
- Managed Services products will appear on the DataTree menu but will not be fully available for ordering until the ELS team enters the customer's credentials in the Account Profile.
- If a customer uses the Managed Services products before ELS has completed their setup, they will receive the following message: "This product is currently in the approval and setup process. It will be available soon. Please try again later."

## Step 1) Salesforce Account Setup Request

Complete an Account Setup Request for the ELS system. Make sure that you have the MLA and the Acct Setup - Non-Home Equity Client Management Summary form completed. Attach both documents to the Account Setup Request.

In Salesforce select the Account Set-up tab. Complete the required fields and select DataTree.com as the System Integration option.

If the customer is an existing DataTree or TitleFlex account, go to step 2 A. If they are a new customer, go to step 2 B. For new customers, follow all the provisioning steps shown above.

## Step 2 A) Existing Customers

In the DataTree Admin tool, select the Customer Service option and find the account.

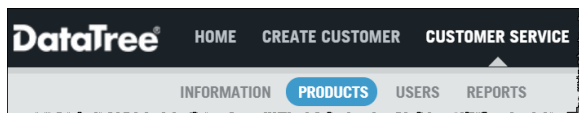

The screenshot shows the DataTree Customer Service interface. At the top is a navigation bar with links: HOME, CREATE CUSTOMER, CUSTOMER SERVICE (highlighted), ORDER PORTAL, SALES APPROVAL, ABSTRACTOR ORDER, and INTERNAL ADMIN. Below the navigation bar, the 'Customer Service' section contains search filters: 'Show 10 entries', 'Display: All', and 'Search By: All Fields' with a search input containing 'test legal'. A purple arrow points to the search input. Below the filters is a 'COMPANY' section with a checkbox 'Show Parent with Child' and a note '(^) Identifies child account'. A table lists customer accounts with columns: Company, Account #, Billable, Provisioning, Product, Status, Type, City, State, and Email. The table contains one entry: 'Test Legal Vesting' with Account # 2008304, Billable Yes, Provisioning Sales, Product DataTree, Status Active, Type Paid, City Santa Ana, State CA, and Email mtrammell@firstam.... At the bottom, it says 'Showing 1 to 1 of 1 entries' and has 'Previous' and 'Next' buttons.

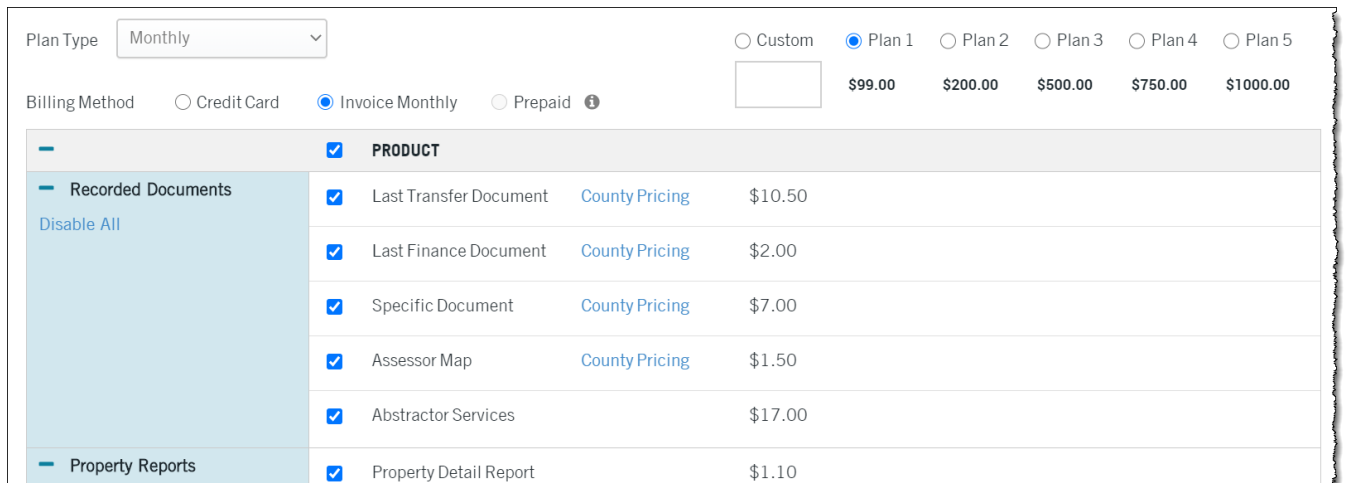

Company	Account #	Billable	Provisioning	Product	Status	Type	City	State	Email
Test Legal Vesting	2008304	Yes	Sales	DataTree	Active	Paid	Santa Ana	CA	mtrammell@firstam....

This page will only show the search tools until search criteria are entered. Click the company name to access editing tools.

Click **Products** in the company account. Enable the reports as specified in the customer's contract. The pricing details are in the Master Licensing Agreement.

The screenshot shows the DataTree Products page. The navigation bar at the top is the same as the previous screenshot. Below it, there are four tabs: INFORMATION, PRODUCTS (highlighted in blue), USERS, and REPORTS.

The screenshot shows the DataTree Products page with a table of products and their pricing. At the top, there are filters for 'Plan Type' (Monthly) and 'Billing Method' (Credit Card, Invoice Monthly, Prepaid). Below the filters is a table with columns: PRODUCT, County Pricing, and Price. The table contains the following products: Last Transfer Document (\$10.50), Last Finance Document (\$2.00), Specific Document (\$7.00), Assessor Map (\$1.50), Abstractor Services (\$17.00), and Property Detail Report (\$1.10). The 'PRODUCT' column has a checkbox for each product, and the 'County Pricing' column has a link to 'County Pricing'.

PRODUCT	County Pricing	Price
<input checked="" type="checkbox"/> Last Transfer Document	<a href="#">County Pricing</a>	\$10.50
<input checked="" type="checkbox"/> Last Finance Document	<a href="#">County Pricing</a>	\$2.00
<input checked="" type="checkbox"/> Specific Document	<a href="#">County Pricing</a>	\$7.00
<input checked="" type="checkbox"/> Assessor Map	<a href="#">County Pricing</a>	\$1.50
<input checked="" type="checkbox"/> Abstractor Services		\$17.00
<input checked="" type="checkbox"/> Property Detail Report		\$1.10

## Step 2 B) New Customers:

In DataTree Admin, select the Create Customer option and enter the appropriate account information. Provision all sections as required. The process is the same (click the red “x” to change it to a green “checkmark”).

**PRODUCTS & PRICING**

WEB	XML	DTAPI

### Step 3) Verify Managed Services Email Approval

When you enable a Managed Services product in the DataTree Admin tool, the Admin tool sends an email to ELS for product approval.

## Appendix Two: Trial Generator

Under **Create Customer** accounts can be setup as trial accounts using the **Trial** radio button.

**NOTE:** Managed Services products are not available for Trial Accounts.

### Customer Information

Enter the customer information. Once an email address is used for a trial account, it may not be re-used to create another trial.

### Trial Information

Manage the number of trial duration, total searches, products, searches and total products available here. Once submitted, a trial username will be created and emailed to the client at the email provided.

**NOTE:** The total number of searches is fixed and cannot be changed.

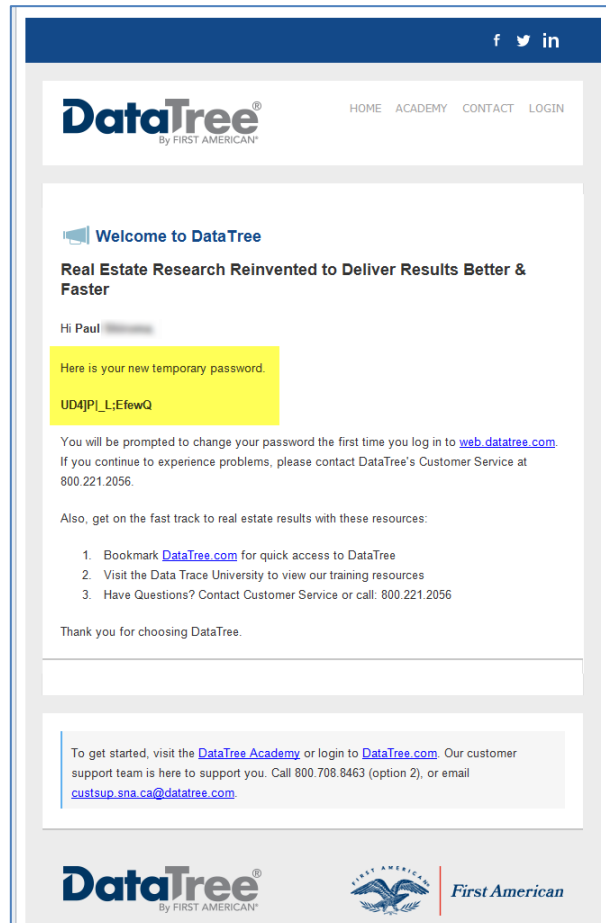

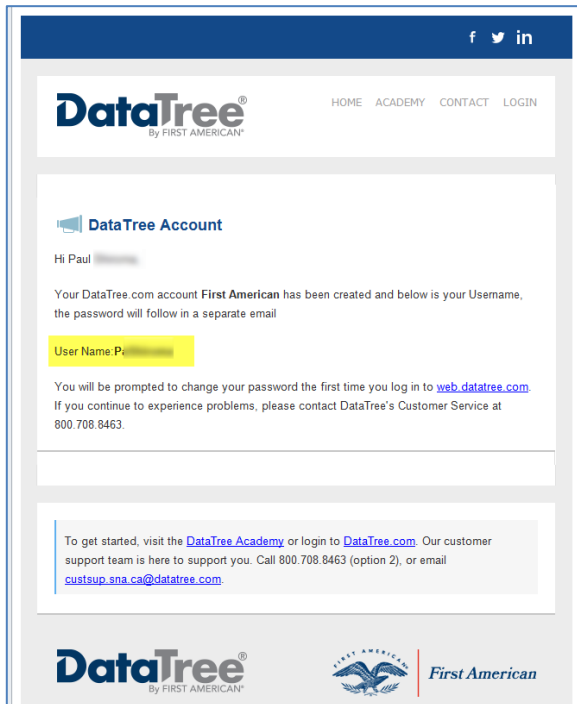

The screenshot shows the 'DataTree' web application interface. The top navigation bar includes links for HOME, CREATE CUSTOMER, CUSTOMER SERVICE, ORDER PORTAL, SALES APPROVAL, ABSTRACTOR ORDER, and INTERNAL ADMIN. The 'CREATE CUSTOMER' link is active, and a sub-menu shows 'INFORMATION' selected. The main content area is titled 'Create Customer' and features a 'Type' section with radio buttons for 'Paid' and 'Trial' (which is selected). Below this is the 'TRIAL INFORMATION' section, which includes explanatory text about limits and a form with six input fields for trial parameters.

TRIAL INFORMATION					
Limits indicated below are set at the account level and apply to each <b>user</b> in the trial account.					
Total Searches are successful property retrievals where property reports or documents are ordered. There is no limit to the number of documents retrieved from these searches.					
Total Documents is the number of documents ordered via Document ID (not via Property Search).					
Expire In (Days)	14	Total Searches	100	Total Documents	50
Total Products	50	Total Title Chain & Lien Reports	35	Total Export Properties	100

## Appendix Three:

### Examples One and Two: Username and Password Email Examples

Client emails with username and password. Your email address will appear in the cc line of the email with the username (at left).

### Example Three: System EULA

This is a standard, boilerplate license agreement.

#### **FIRST AMERICAN DATA TREE LICENSE AGREEMENT**

This License Agreement ("Agreement") accompanies the information, data, images, reports, and/or software (the "Services") that you are accessing. By accessing the Services, you are agreeing to all the terms and conditions of this agreement, including the product, pricing and billing information in any order confirmation, if applicable ("Order Confirmation"), the terms of which are incorporated into this Agreement by reference. First American Data Tree LLC, a Delaware limited liability company ("Data Tree") grants you ("Customer") a limited, non-exclusive, non-transferable license to use the Services, provided you accept the following terms and conditions:

##### **1. Property.**

The Services and all intellectual property rights therein are owned by Data Tree. No ownership rights are granted by this Agreement and, except for the limited license provided, Data Tree reserves all rights in and to the Services and all underlying data compilations and information contained therein, including but not limited to the exclusive intellectual property rights and the right to grant further licenses. Customer acknowledges that the Services are the proprietary property of Data Tree and are a valuable commercial product, the development of which involved an expenditure of substantial time and money by Data Tree.

##### **2. Permitted Use.**

The Services are solely for use within Customer's own organization by Customer's own employees for

Property Information	\$0.00
Sales Comparables	\$0.00
Abstractor Services	\$27.00
Data Export	\$0.25
Setup Fees	\$0.00

## Appendix Four:

### Using Billable Groups:

A few customers may need to allocate charges to specific cost centers and billable groups may assist with this need.

#### Step One: Identify and Flag Parent Account:

Before doing anything else:

1. Make sure that you have the account the customer wants to be the parent account and get the account number.
2. If the group the customer wants to be billable already exists, make sure to get that from customer. Otherwise, have the customer build group and get the name of the group.
3. Have the customer provide the group's billing contact information, including the name, address, phone, fax, and email.

Send an email to <someone in development to make account number "xyz" a parent account>

Development will flag the customer's account to be a parent account. This allows groups below the newly christened parent to be setup as billable accounts.

#### Step Two: Modify the Group Provided by the Customer to Billable.

In the Internal Admin, check Add Parent Account (1) and select the parent account (2) from the list. This information is from Step 1.1, above. Select the group (3).

**PARENT ACCOUNT**

☒ Add Parent Account      Parent Acct      FIA Stage Test - 2004      Group      gp1

INFORMATION			
Company	<input type="text" value="Company"/>	Address 1	<input type="text" value="Address 1"/>
			Phone <input type="text" value="Phone"/>
First Name	<input type="text" value="First Name"/>	Address 2	<input type="text" value="Address 2"/>
			Fax <input type="text" value="Fax"/>
Last Name	<input type="text" value="Last Name"/>	City	<input type="text" value="City"/>
Title	<input type="text" value="Title"/>	State	<input type="text" value="State"/>
Email	<input type="text" value="Email"/>	Zip	<input type="text" value="Zip"/>
<div> <div>Bus. Unit <input type="text" value="Select One"/></div> <div>Sales Rep <input type="text" value="Select One"/></div> <div>Industry <input type="text" value="Select One"/></div> </div>			

Complete the group billing information (4).

Make sure Company Name field the same as parent group.

Naming convention: “Name of Company dash Name of Group” (example: Bank of America – Post Closing)

Enter the billing address (which may be different from parent address).

Complete FA business information to match existing customer’s current information.

### Step Three: Create Group Managers

Customer’s Company Admin makes group managers, if required, as mentioned above.

Once a Billable Group has been created, it may be viewed at any time from the Company level.

## Appendix Five: TaxSource Pricing Configuration

If you enable any TaxSource option, it becomes enabled for all states. These cannot be enabled for individual states/state groups.

<input type="checkbox"/>	TaxSource (Automated)	State Pricing	<input type="text"/>	\$3.00	\$3.00	\$3.00	\$3.00	\$3.00
<input type="checkbox"/>	TaxSource	State Pricing 	<input type="text"/>	\$6.00	\$6.00	\$6.00	\$6.00	\$6.00
<input type="checkbox"/>	TaxSource Blended	State Pricing 	<input type="text"/>	\$8.00	\$8.00	\$8.00	\$8.00	\$8.00

For clients configured with automated-only counties, select **Tax Source (Automated.)** For clients that include manual counties, select **both TaxSource (Automated) and TaxSource**. If a client has negotiated a SOW for a single rate for auto and manual, use the **TaxSource Blended** option.

Any time one of these options is selected, additional pricing configuration is required. All states will default to the price set in the menu above. However, there are states that do not fall under the default pricing model. Use the [State Pricing](#) link to adjust each of the states listed in the table below.

TaxSource Pricing					
TaxSource Tier 1	Automated Rate	Manual Rate	Blended Rate*	Search Requirements	Delivery Time For Manual Searches
AK, AL, AR, AZ, CA, CO, FL, HI, IA, ID, KS, MN, MT, ND, NE, NM, NV, OH, OK, OR, SD, UT, WA, WY	\$3.00	\$6.00	\$4.50	Single Level Collection	90% reporting of orders within 48 hours
TaxSource Tier 2					
CT, DC, DE, GA, IL, IN, LA, MD, ME, MO, MS, NC, NH, RI, SC, TN, VA, VT, WI, WV	\$4.00	\$8.00	\$6.50	Multiple Level Collection	90% reporting of orders within 48 hours
TaxSource Tier 3					
KY, MA, MI	\$6.00	\$12.00	\$8.50	Multiple Level Collection	90% reporting of orders within 48 hours
TaxSource Tier 4					
NJ	Not Available	\$15.00	\$15.00	Multiple Level Collection	90% reporting of orders within 48 hours
TaxSource Tier 5					
NY	Not Available	\$25.00	\$25.00	Multiple Level Collection	80% reporting of orders within 3 business days
TX	Not Available	\$25.00	\$25.00		90% reporting of orders within 48 hours
TaxSource Tier 6					
PA	Not Available	\$55.00	\$55.00	Multiple Level Collection	80% reporting of orders within 8 business days

\* Blended Rate – Minimum monthly contract required. Requires approved order volume and assessment of geographic footprint.
