

LexisNexis PatentOptimizer®

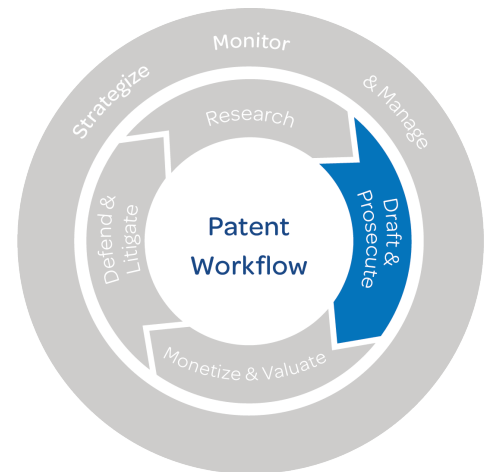

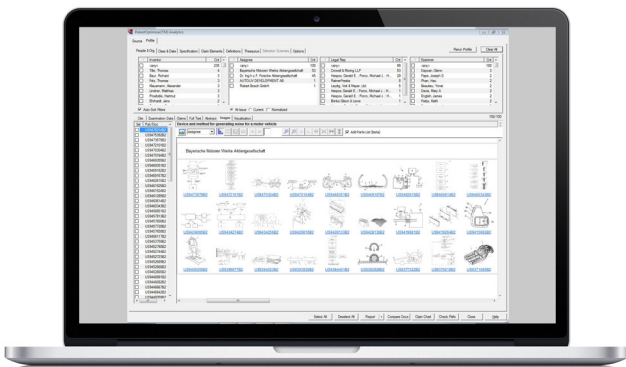

Develop internally consistent, concise and well-tailored patent applications with revolutionary drafting features exclusive to PatentOptimizer®.

Automate and streamline patent analysis and easily perform critical quality control checks with the tool created by patent attorneys for patent attorneys.

LexisNexis PatentOptimizer offers revolutionary patent drafting technology that is unrivalled

 LexisNexis PatentOptimizer provides a greater degree of quality control for patent drafting than found elsewhere and our clients appreciate the extra steps that we take to mitigate their risk.

Mercedes Meyer –
Partner at Drinker Biddle & Reath

LexisNexis PatentOptimizer enables you to:

- + Draft high quality patent claims with tools that help you check for proper antecedent basis within the claims, adequate support in the drawings and consistency in parts labelling and numbering
- + Perform claim analyses with the aid of a chart showing the structure of dependant and independent claims
- + Compare documents to detect new and deleted matter appearing anywhere in the documents
- + Create a complete error report with a single click to identify claim issues, draw reference anomalies, highlight improper or vague term and phrase usage

Innovation Elevated

Serving you across the entire patent workflow
