Columbia, SC 29201

Education or Qualifications

Bachelor of Science, University of South Carolina

Specializations

Finance and Accounting

Area of Expertise

As a Property Accountant, I am responsible for providing detailed financial reporting for commercial real estate holdings managed by Colliers International | South Carolina. I also consult with property owners and investors on accounting matters to assist them in realizing the maximum value of their investments. I enjoy getting to work with clients as well as property managers to find accounting solutions. I also offer expertise in understanding and utilizing MRI accounting software to benefit the firm and our clients.

When I see a problem, I look at it from a macro level first and then begin focusing on the details. I strive to think outside the box while still following a structured approach in my responsibilities. I define my success in knowing that I have provided accurate and timely financial reports to all of Colliers' clients.

Business and educational background

I am a graduate of the University of South Carolina, where I earned a Bachelor of Science in Business Administration, majoring in Accounting and Corporate Finance.

Prior to joining Colliers, I worked at US Patriot Tactical as Staff Accountant and then as Assistant Controller, where I gained hands-on experience in the accounting field

Professional Accomplishments

While at Colliers | South Carolina, I have been able to play a part in increasing the efficiency of the accounting department by improving the annual tenant reconciliations for all properties managed by Colliers.
