Melissa Brewington

Area of Expertise

I am responsible for providing detailed financial reporting for commercial real estate holdings managed by Colliers | South Carolina. I also consult with property owners and investors on accounting matters to assist them in realizing the maximum value of their investments.

My love of accounting comes from a natural detail-oriented and customer service mindset. Details are so critical in this line of work, and my self-motivation and attention to detail serve me and my clients well. I enjoy getting to work with clients as well as property managers, responding quickly to issues and simplifying the often overwhelming intricacies of accounting. I genuinely enjoy hearing out my clients when they have questions or issues and working with them to understand their needs.

Business and educational background

I am a graduate of the Sampson Community College, where I earned an associate degree in Accounting. My professional background consists of both private and public accounting, give me a well-rounded approach that works well for property accounting.

Community Involvement

One of the things that attracted me to Colliers is the company's core values of Community and Service. In my book, it's important to put other people first, and I enjoy serving my community. I am an active parent in my daughter's school activities, work on Habitat for Humanity builds, do pet volunteer work and participate in donation drives, especially toy drives and donation-driven paint nights.
