Specializations

Real Estate Management
Services
Operations / Administration

Area of Expertise

I provide daily support to the Property Manager and exceptional customer service to the tenants of the office buildings managed by REMS. I enjoy learning new things and working alongside Property Managers and other Assistant Property Managers to develop and implement sound practices to best support our clients, tenants and internal team.

I am a dedicated employee who strives to do my job in the best way possible. I understand the importance of my role and how I can contribute to the mission of Colliers. My skills and abilities to work on a team or alone can be very valuable to any person or group. Recognizing my strengths and weaknesses have empowered me to deal with difficult situations easily.

Professional Accomplishments

In October 2019, I achieved the REMS Certified Assistant (RCA) designation through Colliers University. The RCA program consists of laborious coursework and is designed to accelerate careers in property management with a curriculum proven to create excellent client experiences and deliver the greatest possible results.

Business and educational background

I have worked in administrative roles for over 20 years. I am currently attending Limestone College working towards a degree in Business Administration.

Community Involvement

I love working in my ministry and I enjoy being in the community with my neighbors. I make the best use of my time by spending it with family and friends.
