## AREA OF EXPERTISE

I am the Market President for the Greenville-Spartanburg-Anderson market, also known as the Upstate. My responsibilities include the management of the brokerage staff in the Greenville and Spartanburg offices as well as the growth of the company's sales, leasing, property management and project management business. In support of this growth, one of my primary responsibilities is recruiting talent to Colliers. I also serve on Colliers International | South Carolina's statewide management group and specialize in developing and implementing strategic and tactical plans to best use the resources of Colliers International.

I assist the brokerage staff in Greenville and Spartanburg, comprised of office, retail, industrial and land leasing and sales specialists, with strategies for achieving clients' real estate objectives. I very much enjoy seeing the development of talent and growth within the company. This growth is measured in many ways, including repeat business with clients, the overall client satisfaction with our services and the growth in sophistication of the transactions that we are involved in. Attracting fresh, talented minds to our team, combined with the wealth of experience that many of our brokers possess, enables us to stay ahead of the changing markets and remain as a top third-party commercial real estate service provider in the state of South Carolina.

## BUSINESS AND EDUCATIONAL BACKGROUND

I am a 1995 graduate of Furman University. Prior to joining Colliers as the market

president, I was one of the leading brokers in the Upstate commercial real estate market for over eleven years, specializing in office brokerage. My past experience allows me to leverage my team in a manner that consistently produces satisfied clients.

## PROFESSIONAL ACCOMPLISHMENTS

I served as the 2010 President of the Greater Greenville Association of REALTORS® (GGAR) Commercial Steering Committee and was the 2010 Commercial Realtor of the Year.

## COMMUNITY INVOLVEMENT

One of the unique features of the Greenville-Spartanburg-Anderson market is the pride that these communities feel in our shared identity as "the Upstate". For instance, I serve as a board member for Ten at the Top, an organization dedicated to creating opportunities for collaboration on issues facing the ten counties that make up the Upstate of South Carolina. I am also involved in the Greenville Chamber of Commerce Board of Advisors and dedicate time to serving on the Board of Directors for the Furman University Alumni Association. I have been a past board member of the Mental Health Association, Communities in Schools, United Way Palmetto Society, GGAR and South Carolina Association of REALTORS®.

I am a graduate of Leadership Greenville, the flagship leadership program for the Greenville Chamber of Commerce, and volunteer for the Big Brother Big Sister program.
