

BLADE STORAGE & WASH RACKS

The following racks were designed to optimize the life of your blade cartridges by providing a structure to safely wash and store the helical blades, bed knives and spacer bars. All of the racks fit within our Soak N' Store tubs.

BED KNIFE & SPACER BAR RACK

Part #: 00-06-001997

Dimensions: L35.8" x W12.5" x H4.3"
Holds: 3 bed knives + 3 spacer bars
Stackable: Yes
Price: \$395 / ea

Usage: This rack can safely store three bed knives and three spacer bars when not in use, or can secure three bed knives blade-up to help clean the stickiest of residue. It's like having a second set of hands. They fit easily within our Soak N' Store tubs and can be submerged in your cleaning solution to easily scrub away resin and plant material.

Recommended Quantity: Enough for all bed knives and spacer bars on site.

HELICAL BLADE STORAGE RACK

Part #: 00-06-001996

Dimensions: L37.2" x W12.5" x H4.0"
Holds: 3 helical blades
Stackable: No
Price: \$395 / ea

Usage: This multi-purpose rack is designed to make cleaning the helical blade an absolute breeze. Plus, to help save time during a hot swap, this rack can alternatively house three full TriFlex Blade cartridges, made up of a helical blade, a spacer bar and a bed knife.

Recommended Quantity: Enough for all helical blades on site.

HELICAL BLADE SUPPORT RACK

Part #: 00-06-002193

Dimensions: L24.42" x W12.5" X H4.3"
Holds: 3 helical blades
Stackable: No
Price: \$375 / ea

Usage: This rack cradles the helical blade itself to provide easy cleaning access to the helical blade bearing ends, as we do not recommend submerging these components. It offers essential protection to the blade edges while you wipe away residual plant material.

Recommended Quantity: One for the sanitation department and one for the maintenance department.
