

PRAFO® Ankle Foot Orthosis

Features

- › Clinically proven for effective ambulation*
- › Controls dorsi-plantar flexion
- › Infinite measurable adjustments
- › Custom-contoured, malleable aluminum heel connector
- › Malleable aluminum anti-rotation bar
- › Compatible with all liner variations that we offer if applicable
- › Proven superior integrity of the superstructure**
- › Available in Adult standard Kodel liner # 650SKT, Pediatric standard # 550SKG and Infant standard # 450RKG
- › Specific options to enhance alignment and support of the ankle and foot (e.g. VCA™, Plastic stabilizing shell)

**Heel Strap positioned inside the heel connecting bar for display purposes only

PRAFO® -All 4 frame sizes

PRAFO®
Orthosis
650SKB Adult
Kodel Black

PRAFO® Orthosis
650SKG Adult
Kodel Gun Metal

PRAFO® Orthosis
650SFY Adult
Fleece Yellow

PRAFO® Orthosis
650PKG Adult
Pad & Strap

Uses

- › Positive heel suspension is just the beginning of what the PRAFO® Orthosis delivers to your patients. The PRAFO® Orthosis offers many adjustable features beneficial for the ambulatory and non-ambulatory patient. Its custom-contoured aluminum heel connector bar helps to control dorsi-plantar flexion by allowing infinite, measurable adjustments. Its ergonomically designed foot plate allows its liners to be replaced or cleaned easily without tools. The integral, securely-fastened walking base provides a shoe-type surface for ambulatory patients. Its calf and foot segments can be custom-modified to accommodate patient physiology. Part of the PRAFO® Orthosis is an anti-rotation bar made of malleable aluminum, which adjusts to control unwanted extremity rotation
- › Early Intervention for the evolving rehab patient
 - › CVA, TBI, SCI and Diabetic neuropathy
- › Facilitation of functional knee and ankle joint position
 - › Allows for optimal dorsi/plantar flexion ankle positioning to provide adequate clearance during swing phase and knee stability in stance phase.
- › Post musculoskeletal injury of the foot and ankle (Heavy duty version recommended, product # 680SKT)
 - › Post TAL immobilization
 - › Post Botox or serial casting
 - › Stable fractures of the foot and ankle
 - › Tendon or ligamentous tear/rupture
