

B9Creations

Professional 3D Printing Solutions

Model Cure & Model Cure HD

Our line of Model Cure's are compact, high-intensity UV post-curing solutions for applications in jewelry, rapid prototyping, model-making, and more.

- Audible beeping notice when curing process is completed.
- Digital timer display: timer selection from 10 seconds to 9:50 maximum.
- 3 memory settings allow for repeatable workflow.
- Safety protection to interrupt power supply if opening gate during curing.
- Safety switch functions to prevent light emission when door is open.

Designed to **dramatically** reduce curing times.
