

Sales Manager & Home Performance Tech

- Fast growing company
- Uncapped commissions & pay structure

Finding work that has real, meaningful benefits, challenges you, pays well, gives you autonomy & room to work on your own, and also has room for you to grow...that isn't easy.

The company

Revive Energy launched in January 2018. We make building a better home easier, allowing home builders a way to prove the quality of their work, and giving home buyers peace of mind for their massive purchase.

We are on a rapid growth path and need to hire both sales people and technicians.

The job

This job isn't for everyone. There will be minimal supervision. There are minimal rules.

Have integrity. Be devoted to our vision & our customers. Be reliable. Be successful.

Without exaggeration, there is **unlimited growth potential** here.

In the short term, you will have uncapped sales commissions. You will also be paid for every home test you do (in order to do home tests you will have to pass certifications for Infiltration & Duct Leakage or HERS...we will prepare you for either one if you want to increase your earning potential and value to the company).

In the long term, you will be joining a business early on, well before it scales to its full potential or our goals. You will be brought onto the leadership team, and can shape the role & your future.

The job is in Nashville, TN. We have one meeting per week. Beyond that, where you work is up to you. You can come to our office or you can work from home. If you are closing sales, you can work from an Arby's parking lot.

Application process

- E-mail Sean (sean@revive-energy.com) your resume or a 1 page statement on why you're right for this position
- If selected to interview, Sean will send you 3 questions to answer.
- Two interviews, most likely done in one day. You'll talk with Sean & Jon (CEO).
