

# 3D EAR SCANNING

ONE SCAN.  
ENDLESS OPTIONS.™

**TAKE THE NEXT STEP:**

Talk to your hearing health provider to find out more about the products that are best suited to fit your needs.

A single Lantos 3D ear scan enables **total ear care**, unlocking the full range of custom-fit products to protect and enhance your hearing, *while fitting you perfectly.*

# LANTOS 3D EAR SCANNING GIVES YOU THE PERFECT FIT FOR ALL YOUR HEARING NEEDS.

"[The Lantos ear scan] is definitely the best way to get fitted for hearing aids and earplugs!"

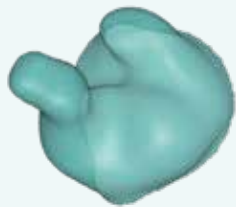

-- Anne H., Patient ★★★★★

## WHY ARE CUSTOM-FIT PRODUCTS BETTER?

- ✓ Superior comfort
- ✓ Unparalleled audio quality
- ✓ Won't fall out

The Lantos 3D Ear Scanning System is a modern, safe alternative to the traditional process of silicone earmold impressions, so the true shape of your ears can be digitally captured—*quickly, accurately, and with no discomfort.*

- ✓ One scan can be used to make endless products
- ✓ Scan kept on file for future orders

## HEARING ASSISTANCE

Restore the connections to the things you love most—your family, your favorite album, a punchline to a funny joke.

## SPORT SAFETY

Protecting your ears in the water or keeping noise down at the track, custom-fit plugs give you greater protection.

## WORK SAFETY

On the job site or out in the yard, protecting your hearing has never felt better than with plugs made just for you.

## NOISE SUPPRESSION

Standard earplugs rarely give you the comfort you need for a good night's sleep. A 3D scan can provide you a perfect-fitting plug, giving you all-night comfort.

## EXCESSIVE AUDIO

No matter what your favorite venue, excessive volumes can cause permanent hearing damage. Protect your ears with custom-fit plugs.

## PERSONAL AUDIO

Whether you are an audiophile or avid listener, custom-fit pieces help you hear every beat in true comfort.
