What Our Customers Are Saying

> "
We chose Verbit because of the superior accuracy, turnaround time and cost they offered. It's been a definite game changer for us.

George H. Michaels, Executive Director, Instructional Development & Interim Assistant Dean, Letters & Science IT, UCSB

> "
The live speech-to-text solution has been a lifesaver in the classroom for our hard of hearing students. The web-based scheduling tool is easy to use, both to request and cancel services.

Valerie Sturm, Coordinator of Services for the Deaf and Hard of Hearing, Brigham Young University-Idaho

Our Integrations, Partners & Customers

Stanford University · University of Pittsburgh · FIT · Brigham Young University · Harvard · University of California Santa Barbara · The University of Utah

Oakland University · UDACITY · Panopto · KALTURA · coursera · WGU Western Governors University

Verbit harnesses the power of artificial and human intelligence to provide a smart transcription and captioning solution. Built on adaptive algorithms, it is the only technology that generates the most detailed speech-to-text files to provide over 99% accuracy, delivered at record-breaking speed. Smart AI technology supports on-demand CART services for real-time results. Verbit's customized solution helps organizations maximize the potential of their audio and video files by making information searchable, accessible and actionable.
