PRICED WIFI & ADS-B STC'S**

ADS-B STC KIT PACKAGES

ADS-B STC Prices as low as \$7,500

ADS-B mandates are coming and our solutions not only allow you to meet December 31, 2019 ADS-B OUT requirements, but gives you all of the benefits of ADS-B IN! Get graphical traffic and weather all to your Bluetooth connected mobile device. Not only that, it does not require any other modifications or updates to your current avionics and only requires a five day downtime! The solution has seamless cockpit integration including TCAS-II Equipped aircraft and does not inhibit future cockpit upgrades.

Our headquarters in Moline, IL is a world-class Authorized Service Center for many aircraft. Featuring dedicated factory-trained technicians, our highly experienced team can deliver your aircraft on time and squawk free. Our nearly 200,000 square foot facility is a one-stop-shop for all of your aircraft needs.

If you are unable to visit our facility, contact us to inquire about our STC kit packages for your aircraft!

Our Garmin GTX-3000 Transponder ADS-B STC's do not require additional modification to existing avionics. This is a replacement for MST-67/A and TDR-94/D and approved integration with TCAS-II.

Our available STC's include:

- 2002 or newer Pro Line 21 equipped Hawkers
- Beechjet 400A/Hawker 400XP

ADS-B STC's can be purchased for use under FAA Form 337 for additional aircraft types not listed on STC. Call for additional information on FAA ADS-B "Matched Pair" approval process.

Our in-house engineering department is continuously working on many aircraft STC's. For a complete list with the most up-to-date information, visit us at ElliottAviaiton.com/stc-list or contact us today!
