

A6T

WRAPPER

© Casmatic - EN - 06/10/14

Casmatic A6T is the latest-generation wrapper. The machine is conceived with criteria like easy access to all machine parts so as to ensure easy maintenance, and features the latest preventive maintenance software. The wrapper A6T is completely automatic and guarantees quick and easy format changes, guided step-by-step. Innovative systems like quick blade replacement and the quick extraction of the sealing device make the machine unique in its kind.

Why A6T?

Versatility

- ➔ Over **130 product configurations**
- ➔ Rolls in diameter **up to 200 mm**
- ➔ Three layers
- ➔ 5 lanes

Ease of use

- ➔ **10 minutes average time** for format change, even for operators without experience
- ➔ **3D synoptic visualization and preventive maintenance** guide the operators in maintenance interventions
- ➔ **Step-by-step instructions** for

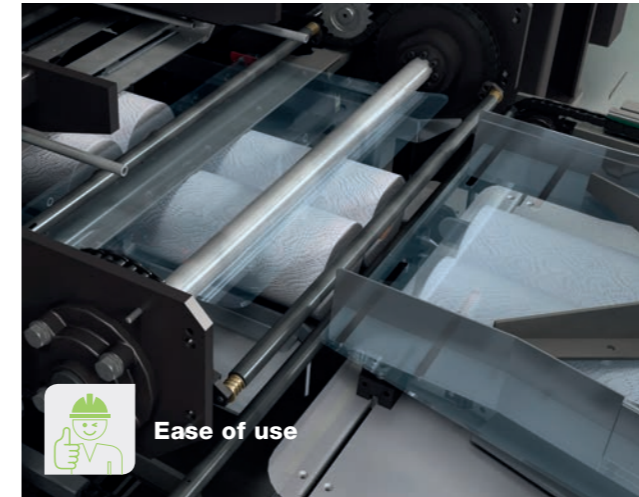

Accessibility

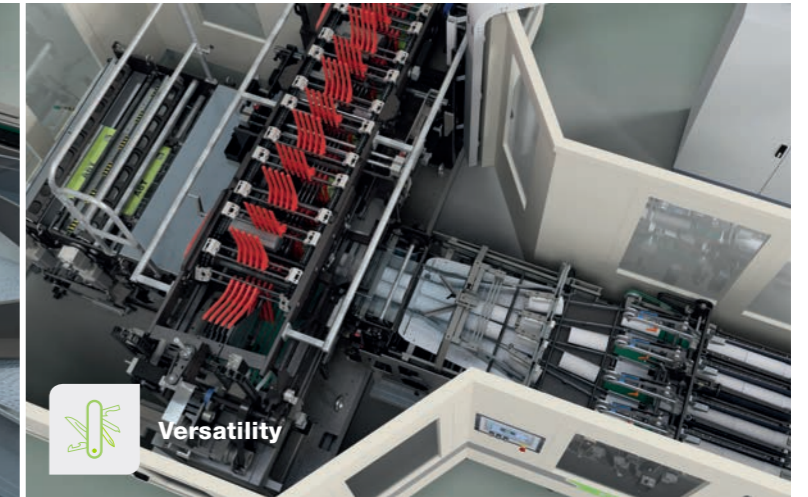

- ➔ Conceived for **easy maintenance**
- ➔ New mechanical structure for the **machine base**
- ➔ New mechanical structure for the **sealing belts unit**

Technical characteristics

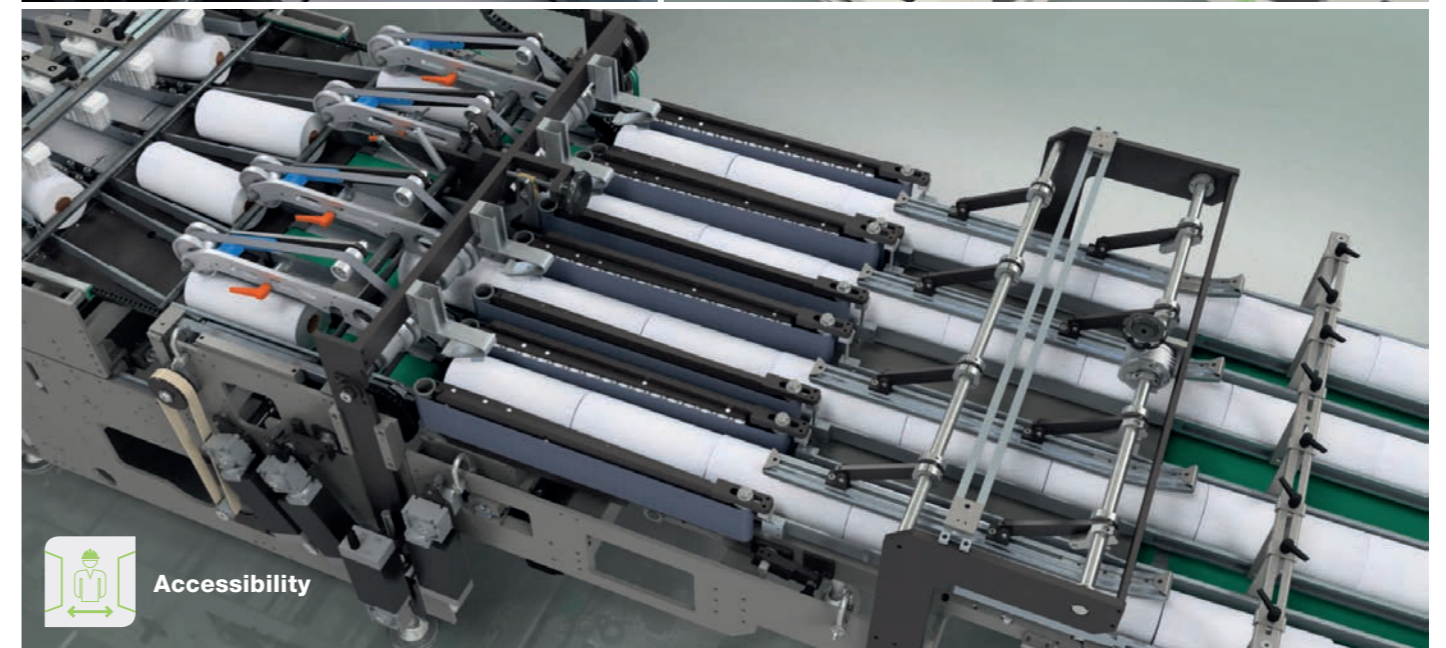

Maximum mechanical speed	Up to 210 cycles/min
Maximum production speed	Up to 200 packs/min
Toilet roll dimensions	Diameter 90 - 135 / Length 90 - 115
Kitchen towel roll dimensions	Diameter 100 - 165 (opt. 200 mm) / Length 190 - 280
Pack width	180 - 560 mm (100 - 165 mm, single kitchen roll, up to 200 mm with optional)
Pack length	180 - 620 (optional 90 - formats B111A - B211A)
Pack height	90 - 305 mm
Wrapping material	Polyethylene 18 - 50 micron
Installed power	69 KvA
Reel support with motorized loading/unloading system
