CMB202EVO

BUNDLER

CMB202EVO is the evolution of Casmatic branded bundlers of the Fabio Perini companies. Capable of overwrapping toilet or kitchen towel roll packs, with different sizes and in a variety of format combinations, thus meeting any market demand. The CMB202EVO ensures high reliability and productivity levels never reached before.

Thanks to the optimization of the overwrapping process and the improvement of the mechanical components, the CMB202EVO allows for an unsurpassed performance: up to 30 mechanical cycles per minute. The various different infeed configurations make the CMB202EVO unique in its kind.

Why CMB202EVO ?

Productivity

- Wide production range
- Maximum mechanical speed: up to 30 cycles per minute

Versatility

- Ability to adapt to every type of layout
- Production of layered and non-layered formats
- Ability to bundle unpacked products
- Ability to position the packs in a variety of configurations

Ease of use

- Conceived for easy maintenance
- Scheduled maintenance
- Guided format change procedures

TECHNICAL CHARACTERISTICS:

- Maximum mechanical speed: up to 30 cycles/minute
- Maximum production speed: according to bundle configuration
- Minimum bundle size: Width 330 mm (min. 230 opt.) - Height 180 mm - Length 180 mm
- Maximum bundle size: Width 850 mm - Height 400 mm (500 opt.) - Length 800 mm (900 opt.)
- Maximum poly reel width: 2450 mm
- Maximum reel diameter: 350 mm
- Overwrapping material: PE 35 - 60 my
- Available optionals: Printing registration system
Bar code insertion inside the bundle
PE band applicator
