

MYPACK

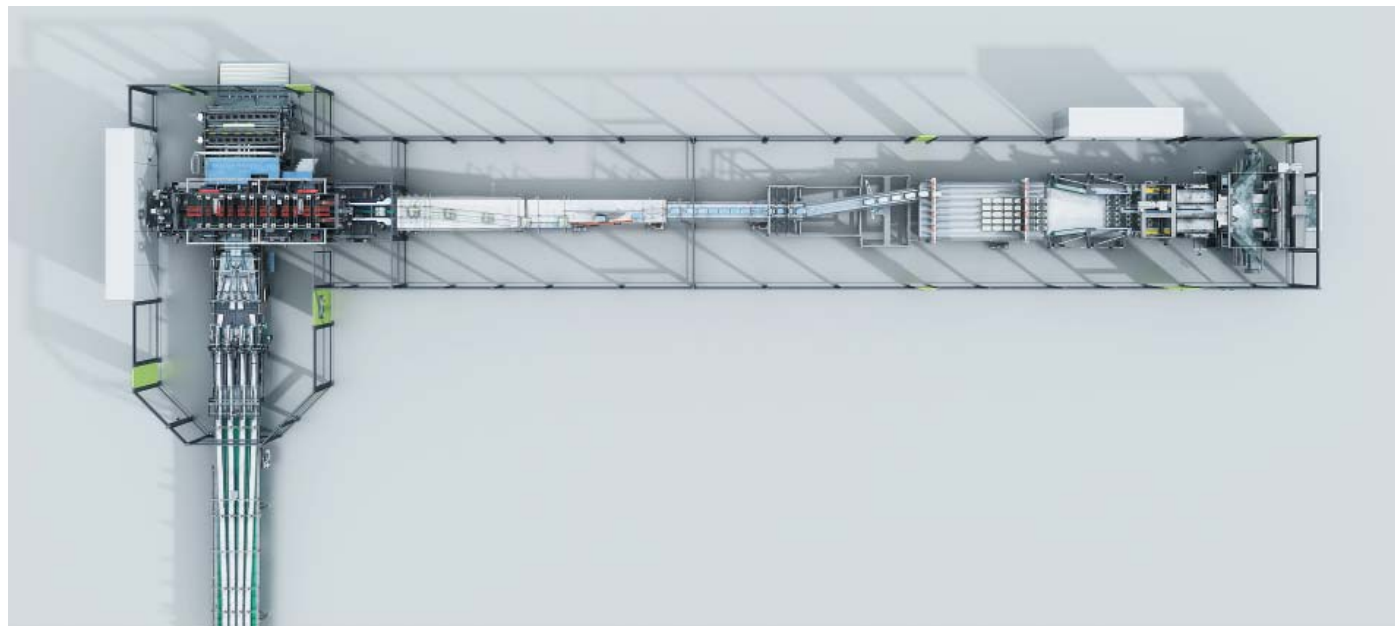

© Casmatic - EN - 10/17

MYPACK is the union of two machines capable of taking rolls at infeed and delivering bundles at out-feed. The equipment has been conceived with the consolidated technology of Casmatic brand and completes the range of MYFABIOPERINI machines. It offers our customers a unique solution that guarantees reliability, versatility and ease of use.

Integrated with the optional ALL IN ONE, MYPACK is designed to have a competitive price on the market and short lead times.

MYPACK can be equipped with important optionals that make it flexible while maintaining its compact footprint and highest productivity. Capable of wrapping toilet rolls and kitchen towels up to 8 lanes width in the bundle. The high quality of the finished products is comparable to the highest standards of Casmatic machines.

ALL IN ONE available on the entire range MYLINE and MYPACK
