

## Rainy Day Emergency Kit

# Snowflakes

Paper snowflakes are fun to make and look at all year round. Here is a simple way to get started. Once you get the hang of it, see how many different kinds you can make! After all, no two snowflakes are alike.

## What You Will Need

Hammermill® Color Copy Digital  
Scissors  
Optional, but VERY helpful: Glitter

### Step 1

Start by cutting paper into a perfect 8x8-inch square.

### Step 2

Fold in half diagonally to make a triangle.

### Step 3

Fold in half again. This time into a smaller triangle.

### Step 4

Fold in thirds, or as many times as you can.

### Experiment

Cut shapes of different number and sizes to create unique snowflake patterns.

### Repeat

The more you make, the more surprises you will get. Add glitter for even more fun.
