Turn-Key Delivery Network

DELIVERLOGIC

DeliverLogic provides a national network of independent delivery providers, who focus on small towns and suburbs, to bring high-quality and professional last-mile delivery for restaurant brands.

100+ Delivery Brands & Operators Nationally

Our independent delivery providers have been in business for over 20 years, and DeliverLogic has been operating as a network of providers since 2008.

Single Dedicated Reporting Dashboard

Allow your location managers and staff to access a single dashboard, where they can manage orders, ratings, adjustments & errors, and payments. From the top brand-level, you can grant different view and access permissions for all levels of your location staff.

We Handle All Payments

DeliverLogic provides all of the payment integrations and payout routings, so that your locations can continue to focus on providing quality food!

Local & National Level Support:

Our local delivery providers handle all 'on-the-ground' issues directly, while DeliverLogic handles all national-level support. Additionally, our partners appreciate the comfort put in place by our protective layers of indemnification, from the level of our drivers up to our corporate level.
