

THE TOP 8 REASONS

YOU NEED A LIFEGUARD

FOR YOUR ZEBRA ENTERPRISE ANDROID MOBILE DEVICES

You're ready to deploy rugged Android devices in your business...but how can you ensure security support throughout the extended mobile device lifecycle?

Introducing LifeGuard™ for Android™ — security updates you can count on for the entire lifecycle of your Zebra Android mobile devices.

ZEBRA

ANDROID ENTERPRISE MOBILE DEVICES

INCLUDED WITH EVERY ZEBRA ONECARE SUPPORT CONTRACT

THE COMPETITION

ANDROID ENTERPRISE AND CONSUMER MOBILE DEVICES

5 to 7 years at no cost
(depending upon device sale period)

1

Initial security
support period

3 years maximum at no cost

Yes, up to 3 years
(depending upon device sale period)

2

Purchaseable
support post initial period

No

Yes, via email, complete with level
of priority

3

Notification of
security patch availability

No

Yes, continued patches for your current
version of Android for a year or longer,
providing plenty of time to migrate

4

Migration support

No

Yes, complete list available in a dash-
board, with current OS/BSP version
and last completed patch

5

List of devices in
service eligible for the update

No

Yes, simply select the devices you want
to update in the dashboard

6

Over-the-air
remote updating

Via an Enterprise Mobile Management
(EMM) system — but it is complex —
no checkbox-style simplicity

Yes, see all devices that need the update,
how many updates are completed and
how many updates remain outstanding

7

Monitor
status of an update

No

Yes, send messages directly to the
devices to direct users to the next step
with checkbox style simplicity

8

Easily message users
regarding updates

No
