## **Detailed Table of Contents**

Chapter 1: Introduction to Visual Studio and Programming	1
1.1 Introduction to Programming	1
1.2 Introduction to Visual Studio	5
Tutorial 1: Creating a Form: Ice Cream Cost	9
1.3 Visual Studio Environment	11
1.4 Adding Controls to a Form	
1.5 The Code Editor Window	
1.6 Introductory Programming Concepts	
1.7 Data Types	
1.8 Working with Variables	
Tutorial 2: Developing the Code	
1.9 Doing Calculations	
1.10 Formatting and Displaying Output in a Label	
1.11 Additional Concepts: Constants, Scope of Variables and ListBox	41
Tutorial 3: Ice Cream Cost with Sales Tax	41
1.12 Exception Handling: Catching Errors	
Exercises	
Chapter 2: Data Types	53
Chapter 2: Data Types         2.1 Working with Different Numeric Data Types	
_	53
2.1 Working with Different Numeric Data Types	53 
2.1 Working with Different Numeric Data Types Tutorial 1: Ice Cream Total with Data Types	
<ul><li>2.1 Working with Different Numeric Data Types</li><li>Tutorial 1: Ice Cream Total with Data Types</li><li>2.2 Casting</li></ul>	
<ul> <li>2.1 Working with Different Numeric Data Types</li> <li>Tutorial 1: Ice Cream Total with Data Types</li> <li>2.2 Casting</li> <li>2.3 Working with Strings and Characters</li> </ul>	
<ul> <li>2.1 Working with Different Numeric Data Types</li> <li>Tutorial 1: Ice Cream Total with Data Types</li> <li>2.2 Casting</li> <li>2.3 Working with Strings and Characters</li></ul>	
<ul> <li>2.1 Working with Different Numeric Data Types</li></ul>	
<ul> <li>2.1 Working with Different Numeric Data Types</li> <li>Tutorial 1: Ice Cream Total with Data Types</li> <li>2.2 Casting</li> <li>2.3 Working with Strings and Characters</li> <li>Tutorial 2: String Operations</li> <li>2.4 Working with Dates and Times</li> <li>Tutorial 3: DateTime Operations</li> </ul>	
<ul> <li>2.1 Working with Different Numeric Data Types</li> <li>Tutorial 1: Ice Cream Total with Data Types</li> <li>2.2 Casting</li> <li>2.3 Working with Strings and Characters</li> <li>Tutorial 2: String Operations</li> <li>2.4 Working with Dates and Times</li> <li>Tutorial 3: DateTime Operations</li> <li>Exercises</li> </ul>	
<ul> <li>2.1 Working with Different Numeric Data Types</li></ul>	
<ul> <li>2.1 Working with Different Numeric Data Types</li></ul>	
<ul> <li>2.1 Working with Different Numeric Data Types</li></ul>	
<ul> <li>2.1 Working with Different Numeric Data Types</li> <li>Tutorial 1: Ice Cream Total with Data Types</li> <li>2.2 Casting</li> <li>2.3 Working with Strings and Characters</li> <li>Tutorial 2: String Operations</li> <li>2.4 Working with Dates and Times.</li> <li>Tutorial 3: DateTime Operations</li> <li>Exercises</li> </ul> <b>Chapter 3: Decision Structures and Validation</b> 3.1 Flowchart for Decision Structure 3.2 if else Statement Tutorial 1: Ice Cream Total with Discount	

3.5 The switch Statement	
Tutorial 3: switch Statement	
3.6 Data Validation	
Tutorial 4: Late Validation	
Tutorial 5: Immediate Validation Using Validating Event	
Exercises	
Rentals Assignment 1	
Help Desk Assignment 1	
Chapter 4: Iteration Structure: Loops	
4.1 The while Loop	
4.2 Console Applications	
Tutorial 1: while Loop to Verify Password	
4.3 Incrementing Variables in a Loop	
Tutorial 2: while Loop: Financial Planning Application	
4.4 The do-while Loop	
4.5 The for Loop	
Tutorial 3: for Loop: Financial Planning Application	
4.6 The break and continue Statements	
Exercises	
Chapter 5: Methods	
5.1 Introduction to Methods	
Tutorial 1: Methods: Compute Heart Rate	
5.2 Passing Values to Methods	
5.3 Passing Arguments by Value	
5.4 Methods That Return a Value	
5.5 Top-Down Design	
5.6 Passing Arguments by Reference	
5.7 Enumerations: Limiting Parameter Values	
Tutorial 2: Enumeration: Enumeration Type Parameter	
Exercises	
Chapter 6: Graphical User Interface Controls	
6.1 Working with ScrollBars	
Tutorial 1: Theater Tickets Sale Application	
6.2 Working with CheckBoxes	
6.3 Working with RadioButtons	
6.4 Validating Input	

6.5 Getting User Input from Controls	
6.6 Working with ComboBoxes	
6.7 Working with ListBoxes	
6.8 Windows Presentation Foundation (WPF)	
Exercises	
Chapter 7: Arrays	
7.1 Introduction to One-Dimensional Arrays	
Tutorial 1: Working with 1-D Arrays: Test Scores Application	
7.2 Assigning a Value to an Element of an Array	
7.3 Accessing Elements of an Array Using the Index	
7.4 Accessing Elements of an Array Using the foreach Loop	
7.5 Copying an Array	
7.6 Looking Up Values in an Array	
Tutorial 2: Lookup Units Sold Using 1-D Arrays	
Exercises	
Chapter 8: Sequential Files and Arrays	
8.1 Introduction to Text Files	
Tutorial 1: Reading Text Files	
8.2 Splitting a Row: Split Method	
8.3 Reading Data from Files into Arrays	
8.4 Additional Methods of Arrays	
Tutorial 2: Looking Up Phone Numbers Using Arrays	
Tutorial 3: Using a ComboBox to Select the Search Name	
8.5 Writing to Text Files	
Tutorial 4: Writing Scores to Text File	
8.6 SaveFileDialog Control	
8.7 Passing Arrays to Methods	
Tutorial 5: Passing Arrays to Compute Average	
8.8 Two-Dimensional (2-D) Arrays	
Tutorial 6: 2-D Array to Find the Sales for a Product	
Exercises	
Rentals Assignment 2	
Help Desk Assignment 2	
Chapter 9: Collections	
9.1 Introduction to Collections	
9.2 List <t> Collection</t>	

Tutorial 1: Looking Up Sales Data Using a List	
9.3 Dictionary <tkey, tvalue=""> Collection</tkey,>	
Tutorial 2: Dictionary with Product# as Key and Price as Value	
Tutorial 3: Dictionary with Product# as Key and Sales Array as Value	
Exercises	
Chapter 10: Graphical User Interface: Additional Controls	
10.1 ListView: Features	
10.2 Adding Items to ListView	
Tutorial 1: Selecting a Show from a ListView	
10.3 Accessing Data from a ListView	
10.4 Forms with Tab Pages	
Tutorial 2: Multipage Form with TabControl	
Exercises	
Chapter 11: Multi-form Applications and Menus	
11.1 Introduction	
11.2 Accessing an Existing Form from Another	
Tutorial 1: Multi-form Financial Planning Application	
11.3 Sharing a Method between Multiple Forms	
Tutorial 2: Sharing the LoadDictionary Method between Forms	
11.4 Closing a Parent Form	
11.5 Menus	
11.6 ToolStrips	
Exercises	
Chapter 12: Databases	
12.1 Introduction	
12.2 Creating Database Objects	
Tutorial 1: Display Employee Records Using the Wizard	
12.3 Displaying Data in a DataGridView	
12.4 Accessing Data Items from a DataGridView	
12.5 Displaying Data in Details View	
12.6 Finding the Record for a Selected Key	
Tutorial 2: Find Employee Records Using the Wizard	
12.7 Selecting a Group of Records Using the Binding Source	
12.8 Selecting Records Using the Table Adapter	
Tutorial 3: Parameter Query to Select Records	
12.9 Untyped Datasets: Displaying Records	

12.10 Untyped Datasets: Selecting Records Tutorial 5: Select Records Using Untyped Datasets. 12.11 Untyped Datasets: Add/Edit/Delete Records Tutorial 6: Add/Edit/Delete Using Untyped Datasets 12.12 Command Object and DataReader. Tutorial 7: SqlCommand and SqlDataReader to Work with Tables Exercises Rentals Assignment 3. Help Desk Assignment 3. Help Desk Assignment 3. Chapter 13: Object-Oriented Programming. 13.1 Introduction to Objects and Classes 13.2 Classes versus Objects 13.3 Information Hiding (Encapsulation) Tutorial 1: Create an Employee Class. 13.4 Properties Tutorial 2: User Interface and Properties 13.5 Calling Methods (Sending Messages to Objects) Tutorial 3: Calling Methods and Passing Data between Forms Exercises Chapter 14: Inheritance 14.1 Introduction to Inheritance. 14.2 Implementing Inheritance Tutorial 1: Creating Subclasses. 14.3 Using Subclasses and Super Classes. 14.4 Overriding Methods. Tutorial 2: Implementing Inheritance. 14.4 Overriding Methods. Tutorial 3: Dynamic Dispatch and the ToString Method. 14.5 Polymorphism. Tutorial 4: Interfaces. Tutorial 5: Sorting Employees. 14.8 Access Modifiers in C#. Exercises	Tutorial 4: Display Records Using Untyped Datasets	
12.11 Untyped Datasets: Add/Edit/Delete Records Tutorial 6: Add/Edit/Delete Using Untyped Datasets 12.12 Command Object and DataReader. Tutorial 7: SqlCommand and SqlDataReader to Work with Tables Exercises Rentals Assignment 3. Help Desk Assignment 3. <b>Chapter 13: Object-Oriented Programming</b> 13.1 Introduction to Objects and Classes 13.2 Classes versus Objects 13.3 Information Hiding (Encapsulation) Tutorial 1: Create an Employee Class 13.4 Properties Tutorial 2: User Interface and Properties 13.5 Calling Methods (Sending Messages to Objects) Tutorial 3: Calling Methods and Passing Data between Forms Exercises <b>Chapter 14: Inheritance</b> 14.1 Introduction to Inheritance 14.2 Implementing Inheritance Tutorial 1: Creating Subclasses 14.3 Using Subclasses and Super Classes 14.4 Overriding Methods Tutorial 2: Implementing the GrossPay Method. 14.5 Polymorphism Tutorial 3: Dynamic Dispatch and the ToString Method. 14.6 Abstract Classes and Interfaces. Tutorial 4: Interfaces 14.7 Using Interfaces to Sort Collections Tutorial 5: Sorting Employees 14.8 Access Modifiers in C#	12.10 Untyped Datasets: Selecting Records	
Tutorial 6: Add/Edit/Delete Using Untyped Datasets	Tutorial 5: Select Records Using Untyped Datasets	
12.12 Command Object and DataReader	12.11 Untyped Datasets: Add/Edit/Delete Records	
Tutorial 7: SqlCommand and SqlDataReader to Work with Tables	Tutorial 6: Add/Edit/Delete Using Untyped Datasets	
Exercises Rentals Assignment 3. Help Desk Assignment 3. Chapter 13: Object-Oriented Programming	12.12 Command Object and DataReader	
Rentals Assignment 3.         Help Desk Assignment 3. <b>Chapter 13: Object-Oriented Programming</b> 13.1 Introduction to Objects and Classes         13.2 Classes versus Objects         13.3 Information Hiding (Encapsulation)         Tutorial 1: Create an Employee Class         13.4 Properties         Tutorial 2: User Interface and Properties         13.5 Calling Methods (Sending Messages to Objects)         Tutorial 3: Calling Methods and Passing Data between Forms         Exercises <b>Chapter 14: Inheritance</b> 14.1 Introduction to Inheritance         14.2 Implementing Inheritance         14.3 Using Subclasses and Super Classes         14.4 Overriding Methods         Tutorial 1: Creating Subclasses         14.4 Overriding Methods         Tutorial 2: Implementing the GrossPay Method.         14.5 Polymorphism.         Tutorial 3: Dynamic Dispatch and the ToString Method.         14.6 Abstract Classes and Interfaces.         Tutorial 4: Interfaces         14.7 Using Interfaces to Sort Collections         Tutorial 5: Sorting Employees         14.8 Access Modifiers in C#	Tutorial 7: SqlCommand and SqlDataReader to Work with Tables	
Help Desk Assignment 3. <b>Chapter 13: Object-Oriented Programming</b> 13.1 Introduction to Objects and Classes         13.2 Classes versus Objects         13.3 Information Hiding (Encapsulation)         Tutorial 1: Create an Employee Class         13.4 Properties         Tutorial 2: User Interface and Properties         13.5 Calling Methods (Sending Messages to Objects)         Tutorial 3: Calling Methods and Passing Data between Forms         Exercises <b>Chapter 14: Inheritance</b> 14.1 Introduction to Inheritance         14.2 Implementing Inheritance         14.3 Using Subclasses and Super Classes         14.4 Overriding Methods         Tutorial 2: Implementing the GrossPay Method.         14.5 Polymorphism.         Tutorial 3: Dynamic Dispatch and the ToString Method.         14.6 Abstract Classes and Interfaces.         Tutorial 4: Interfaces         14.7 Using Interfaces to Sort Collections         Tutorial 5: Sorting Employees         14.8 Access Modifiers in C#	Exercises	
Chapter 13: Object-Oriented Programming	Rentals Assignment 3	
<ul> <li>13. Introduction to Objects and Classes</li> <li>13.2 Classes versus Objects</li> <li>13.3 Information Hiding (Encapsulation)</li> <li>Tutorial 1: Create an Employee Class</li> <li>13.4 Properties</li> <li>Tutorial 2: User Interface and Properties</li> <li>13.5 Calling Methods (Sending Messages to Objects)</li> <li>Tutorial 3: Calling Methods and Passing Data between Forms</li> <li>Exercises</li> </ul> Chapter 14: Inheritance <ul> <li>14.1 Introduction to Inheritance</li> <li>14.2 Implementing Inheritance</li> <li>14.3 Using Subclasses and Super Classes</li> <li>14.4 Overriding Methods</li> <li>Tutorial 2: Implementing the GrossPay Method</li> <li>14.5 Polymorphism</li> <li>Tutorial 3: Dynamic Dispatch and the ToString Method</li> <li>14.6 Abstract Classes and Interfaces</li> <li>Tutorial 4: Interfaces</li> <li>14.7 Using Interfaces to Sort Collections</li> <li>Tutorial 5: Sorting Employees</li> <li>14.8 Access Modifiers in C#.</li> </ul>	Help Desk Assignment 3	
<ul> <li>13.2 Classes versus Objects</li> <li>13.3 Information Hiding (Encapsulation)</li> <li>Tutorial 1: Create an Employee Class</li> <li>13.4 Properties</li> <li>Tutorial 2: User Interface and Properties</li> <li>13.5 Calling Methods (Sending Messages to Objects)</li> <li>Tutorial 3: Calling Methods and Passing Data between Forms</li> <li>Exercises</li> </ul> <b>Chapter 14: Inheritance</b> <ul> <li>14.1 Introduction to Inheritance</li> <li>14.2 Implementing Inheritance</li> <li>Tutorial 1: Creating Subclasses</li> <li>14.3 Using Subclasses and Super Classes</li> <li>14.4 Overriding Methods</li> <li>Tutorial 2: Implementing the GrossPay Method</li> <li>14.5 Polymorphism</li> <li>Tutorial 3: Dynamic Dispatch and the ToString Method</li> <li>14.6 Abstract Classes and Interfaces</li> <li>Tutorial 4: Interfaces</li> <li>14.7 Using Interfaces to Sort Collections</li> <li>Tutorial 5: Sorting Employees</li> <li>14.8 Access Modifiers in C#</li> </ul>	Chapter 13: Object-Oriented Programming	414
<ul> <li>13.3 Information Hiding (Encapsulation)</li> <li>Tutorial 1: Create an Employee Class</li> <li>13.4 Properties</li> <li>Tutorial 2: User Interface and Properties</li> <li>13.5 Calling Methods (Sending Messages to Objects)</li> <li>Tutorial 3: Calling Methods and Passing Data between Forms</li> <li>Exercises</li> </ul> <b>Chapter 14: Inheritance</b> <ul> <li>14.1 Introduction to Inheritance</li> <li>14.2 Implementing Inheritance</li> <li>14.3 Using Subclasses and Super Classes</li> <li>14.4 Overriding Methods</li> <li>Tutorial 2: Implementing the GrossPay Method</li> <li>14.5 Polymorphism</li> <li>Tutorial 3: Dynamic Dispatch and the ToString Method</li> <li>14.6 Abstract Classes and Interfaces.</li> <li>Tutorial 4: Interfaces</li> <li>Tutorial 4: Interfaces</li> <li>Tutorial 5: Sorting Employees</li> <li>14.8 Access Modifiers in C#</li> </ul>	13.1 Introduction to Objects and Classes	
Tutorial 1: Create an Employee Class. 13.4 Properties	13.2 Classes versus Objects	
13.4 Properties         Tutorial 2: User Interface and Properties         13.5 Calling Methods (Sending Messages to Objects)         Tutorial 3: Calling Methods and Passing Data between Forms         Exercises         Chapter 14: Inheritance         14.1 Introduction to Inheritance         14.2 Implementing Inheritance         14.3 Using Subclasses and Super Classes         14.4 Overriding Methods         Tutorial 2: Implementing the GrossPay Method         14.5 Polymorphism         Tutorial 3: Dynamic Dispatch and the ToString Method         14.6 Abstract Classes and Interfaces         Tutorial 4: Interfaces         14.7 Using Interfaces to Sort Collections         Tutorial 5: Sorting Employees         14.8 Access Modifiers in C#	13.3 Information Hiding (Encapsulation)	
Tutorial 2: User Interface and Properties	Tutorial 1: Create an Employee Class	
13.5 Calling Methods (Sending Messages to Objects)         Tutorial 3: Calling Methods and Passing Data between Forms         Exercises <b>Chapter 14: Inheritance</b> 14.1 Introduction to Inheritance         14.2 Implementing Inheritance         Tutorial 1: Creating Subclasses         14.3 Using Subclasses and Super Classes         14.4 Overriding Methods         Tutorial 2: Implementing the GrossPay Method         14.5 Polymorphism         Tutorial 3: Dynamic Dispatch and the ToString Method         14.6 Abstract Classes and Interfaces         Tutorial 4: Interfaces         14.7 Using Interfaces to Sort Collections         Tutorial 5: Sorting Employees         14.8 Access Modifiers in C#	13.4 Properties	
Tutorial 3: Calling Methods and Passing Data between Forms         Exercises         Chapter 14: Inheritance         14.1 Introduction to Inheritance         14.2 Implementing Inheritance         Tutorial 1: Creating Subclasses         14.3 Using Subclasses and Super Classes         14.4 Overriding Methods         Tutorial 2: Implementing the GrossPay Method         14.5 Polymorphism         Tutorial 3: Dynamic Dispatch and the ToString Method         14.6 Abstract Classes and Interfaces         Tutorial 4: Interfaces         14.7 Using Interfaces to Sort Collections         Tutorial 5: Sorting Employees         14.8 Access Modifiers in C#	Tutorial 2: User Interface and Properties	
Exercises	13.5 Calling Methods (Sending Messages to Objects)	
Chapter 14: Inheritance	Tutorial 3: Calling Methods and Passing Data between Forms	
14.1 Introduction to Inheritance         14.2 Implementing Inheritance         Tutorial 1: Creating Subclasses         14.3 Using Subclasses and Super Classes         14.4 Overriding Methods         Tutorial 2: Implementing the GrossPay Method.         14.5 Polymorphism         Tutorial 3: Dynamic Dispatch and the ToString Method.         14.6 Abstract Classes and Interfaces.         Tutorial 4: Interfaces         14.7 Using Interfaces to Sort Collections         Tutorial 5: Sorting Employees         14.8 Access Modifiers in C#	Exercises	
<ul> <li>14.2 Implementing Inheritance</li> <li>Tutorial 1: Creating Subclasses</li> <li>14.3 Using Subclasses and Super Classes</li> <li>14.4 Overriding Methods</li> <li>Tutorial 2: Implementing the GrossPay Method</li> <li>14.5 Polymorphism</li> <li>Tutorial 3: Dynamic Dispatch and the ToString Method</li> <li>14.6 Abstract Classes and Interfaces</li> <li>Tutorial 4: Interfaces</li> <li>14.7 Using Interfaces to Sort Collections</li> <li>Tutorial 5: Sorting Employees</li> <li>14.8 Access Modifiers in C#</li> </ul>	Chapter 14: Inheritance	450
Tutorial 1: Creating Subclasses         14.3 Using Subclasses and Super Classes         14.4 Overriding Methods         Tutorial 2: Implementing the GrossPay Method         14.5 Polymorphism         Tutorial 3: Dynamic Dispatch and the ToString Method         14.6 Abstract Classes and Interfaces         Tutorial 4: Interfaces         14.7 Using Interfaces to Sort Collections         Tutorial 5: Sorting Employees         14.8 Access Modifiers in C#	14.1 Introduction to Inheritance	
<ul> <li>14.3 Using Subclasses and Super Classes.</li> <li>14.4 Overriding Methods</li> <li>Tutorial 2: Implementing the GrossPay Method.</li> <li>14.5 Polymorphism</li> <li>Tutorial 3: Dynamic Dispatch and the ToString Method.</li> <li>14.6 Abstract Classes and Interfaces.</li> <li>Tutorial 4: Interfaces</li> <li>14.7 Using Interfaces to Sort Collections</li> <li>Tutorial 5: Sorting Employees</li> <li>14.8 Access Modifiers in C#.</li> </ul>	14.2 Implementing Inheritance	
14.4 Overriding Methods         Tutorial 2: Implementing the GrossPay Method.         14.5 Polymorphism         Tutorial 3: Dynamic Dispatch and the ToString Method.         14.6 Abstract Classes and Interfaces.         Tutorial 4: Interfaces         14.7 Using Interfaces to Sort Collections         Tutorial 5: Sorting Employees         14.8 Access Modifiers in C#.	Tutorial 1: Creating Subclasses	
Tutorial 2: Implementing the GrossPay Method.         14.5 Polymorphism         Tutorial 3: Dynamic Dispatch and the ToString Method.         14.6 Abstract Classes and Interfaces.         Tutorial 4: Interfaces         14.7 Using Interfaces to Sort Collections         Tutorial 5: Sorting Employees         14.8 Access Modifiers in C#.	14.3 Using Subclasses and Super Classes	
<ul> <li>14.5 Polymorphism</li> <li>Tutorial 3: Dynamic Dispatch and the ToString Method</li> <li>14.6 Abstract Classes and Interfaces</li> <li>Tutorial 4: Interfaces</li> <li>14.7 Using Interfaces to Sort Collections</li> <li>Tutorial 5: Sorting Employees</li> <li>14.8 Access Modifiers in C#</li> </ul>	14.4 Overriding Methods	
<ul> <li>Tutorial 3: Dynamic Dispatch and the ToString Method</li></ul>	Tutorial 2: Implementing the GrossPay Method	
<ul> <li>14.6 Abstract Classes and Interfaces.</li> <li>Tutorial 4: Interfaces.</li> <li>14.7 Using Interfaces to Sort Collections.</li> <li>Tutorial 5: Sorting Employees.</li> <li>14.8 Access Modifiers in C#.</li> </ul>	14.5 Polymorphism	
Tutorial 4: Interfaces	Tutorial 3: Dynamic Dispatch and the ToString Method	
<ul> <li>14.7 Using Interfaces to Sort Collections</li> <li>Tutorial 5: Sorting Employees</li> <li>14.8 Access Modifiers in C#.</li> </ul>	14.6 Abstract Classes and Interfaces	
Tutorial 5: Sorting Employees      14.8 Access Modifiers in C#	Tutorial 4: Interfaces	
14.8 Access Modifiers in C#	14.7 Using Interfaces to Sort Collections	
	Tutorial 5: Sorting Employees	
Fxercises	14.8 Access Modifiers in C#	
	Exercises	

Chapter 15: Introduction to Web Applications Development	491
15.1 Introduction to Web Applications	491
15.2 Creating a Single-Page ASP.NET Website	
Tutorial 1: Developing a Simple Web Page: Ice Cream Cost	
15.3 Introduction to HTML	
15.4 Working with Web Server Controls	
15.5 Validating Data Using Validation Controls	
Exercises	
Chapter 16: Web Development: Multipage and Database Applications	
16.1 Accessing Databases from Web Forms	
Tutorial 1: Accessing a Database: Theater Tickets Application	
16.2 Preserving Data during Postbacks Using View State	538
16.3: Multipage Websites and Session State	
16.4 Setting a Page to Its Previous State	
Exercises	
Appendix A: Binary Files	559
A.1 Writing to Binary Files	
Tutorial: Working with Binary Files	559
A.2 Reading Binary Files	
Appendix B: Creating a Database	562
Tutorial: Creating HR Database	
Appendix C: Answers to Review Questions	564
Appendix D: HTML Elements	584
Index
