# 3 SUPER WAYS TO SHOOT HOOPS

TRY THESE FUN GAMES THAT CARSON AND HIS TRENTWOOD TEAMMATES LOVE TO PLAY

## H-O-R-S-E

The first player chooses a spot on the court and takes a shot. If they miss, the next person goes. As soon as a shot is made, the other person must take a shot from the same place, in the exact same way. If they miss the shot, they get a letter (H).

The process is repeated until one player receives all the letters to spell HORSE, meaning the other player wins!

Anything goes in this game. Take a wacky shot to try to eliminate players early. Or, work on fundamental shots like lay-ups, foul shots, etc. For a shorter game, spell PIG instead!

## 21

This game is just a friendly game of 1-on-1. The first player to reach 21 points win! The first person with the ball tries to score while being defended by the second person. If they make a shot, they earn a point and the defender gets a try.

As the ball changes hands, it must always start at a designated spot—typically it is just beyond the 3-point line at the top of the key. But, you can make your starting point anywhere you choose.

## AROUND THE WORLD

The goal of this game is to take a series of shots from marked areas around the court. This game requires endurance and accuracy.

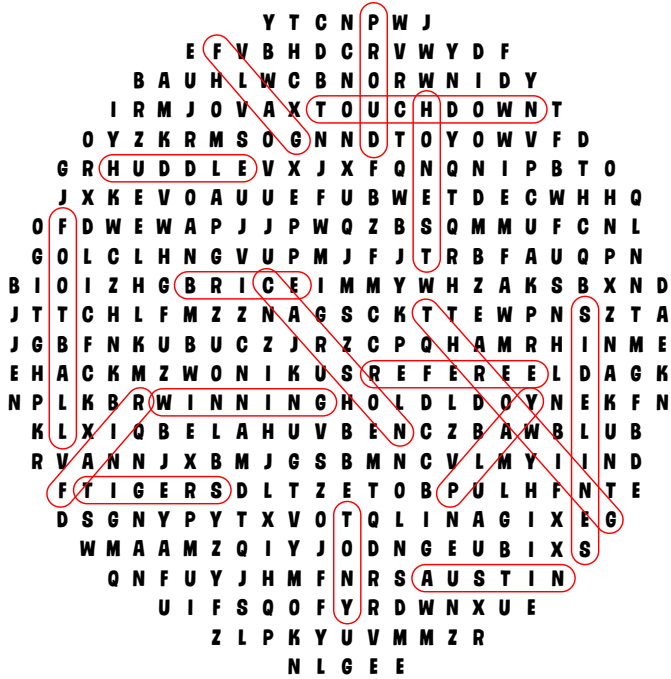

Start by marking five spots on the court from which the shots will be taken. You can use sidewalk tape or tape to make your marks. They can be any distance from the hoop that you want. Typically, a good starting point is right around the baseline area at the side of the hoop and spots continue in a circular pattern around the hoop.

The first person to make one shot from every spot in succession (meaning you can't miss any shots as you move between spots), wins the game!! If you miss, start from that spot on your next turn and keep trying until you make it!
