

Paving Patterns

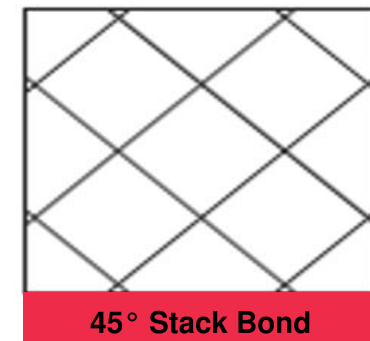

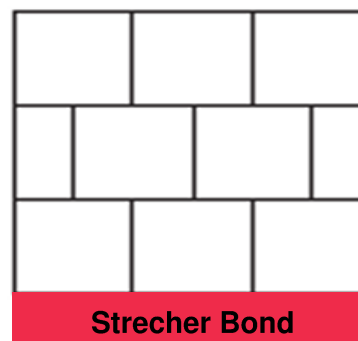

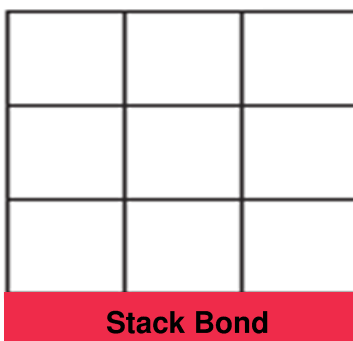

Choosing the pattern that you will lay your pavers in is just as important as picking the paver itself. Different pattern designs can change the look of an area and it is therefore important to find one you love.

Rectangular and square pavers both have similar and unique patterns, check out the patterns below to find one that suits your style. Some patterns may require pavers to be cut. These patterns can be applied with differing colours for striking effect.

Rectangular Pavers

Square Pavers
