

### Introduction

South Australia prides itself on its immaculate education with many believing the state to be filled with the country's best and brightest students. One school that certainly proves this is the prestigious St. Peter's Girls, one of the oldest colleges in the entire country.

Founded in 1894, St Peter's Girls' School was originally housed in North Adelaide. However, in 1954, the school moved to Stonyfell, where they are still located today. As you can decipher, evolution is natural and necessary for St. Peter's Girls.

### Striving for the best in education

In 2018, a new Science Centre was built featuring seven laboratories, a large preparation area and breakout and collaboration spaces. The project also gave birth to doubling the school's Visual Arts floor space, as well as upgraded pool facilities. St Peter's Girls believes new Science Centre will cement the school as a national leader in Science, Technology, Engineering and Mathematics (STEM). Best Bricks & Pavers was delighted to collaborate

with [Swanbury Panglase, Sarah Constructions](#) and St Peter's Girls on this truly exciting and game-changing project. A wonderful combination of our Terrazzo Clinica White Black Series, Large Format Urban Black Series and Traditional Flag Charcoal products were laid on site, highlighting the gorgeous natural colours of the environment surrounding them. You can view our complete range of Terrazzo, Large Format and Traditional products [here](#).

### Products Used

**Terrazzo Clinica White (300x150x60mm)**

<b>Finish:</b>	<b>Black Series</b>
<b>Slip Resistance:</b>	<b>P5</b>
<b>Salt Resistance:</b>	<b>High</b>
<b>Units Per M<sup>2</sup>:</b>	<b>21.43</b>

### Products Used

**Large Format Urban (300x300x60mm)**

<b>Finish:</b>	<b>Black Series</b>
<b>Slip Resistance:</b>	<b>P5</b>
<b>Salt Resistance:</b>	<b>High</b>
<b>Units Per M<sup>2</sup>:</b>	<b>10.98</b>
