TRACK #1 | STORMWATER MANAGEMENT AND GROUND STABILIZATION

SESSION 1 LEADER:

Peter M. Hanrahan, CPESC, E.J. Prescott, Inc.

Stormwater has been called the last frontier in water management. For this track, Everett J. Prescott, Inc. has assembled a strong group of presenters, and they will discuss innovative and cost effective solutions for challenging site conditions.

Please join us for a full day of exploration on water, the industry's final frontier!

FEATURED PRESENTATIONS

POROUS PAVEMENT SYSTEMS

Mike Everhart, E.J. Prescott, Inc.; Gardiner, ME

FLEXIBLE POROUS PAVING SYSTEMS

Steve Hides, Northeast Porous Paving; Harpswell, ME

INNOVATIONS IN STORMWATER STORAGE

Ben Aulick, ACO, Inc.; Casa Grande, AZ

POST-CONSTRUCTION STORMWATER TREATMENT

Shane Murphy, BioClean; Carlsbad, CA

INDUSTRIAL STORMWATER TREATMENT

Calvin Noling, StormwaterRx; Portland, OR

EXTENDING THE LIFE OF PAVED SURFACES

Doug McCluskey, E.J. Prescott, Inc.; Gardiner, ME

TRACK #2 | INNOVATIONS IN CLEAN DRINKING WATER

SESSION 2 LEADER:

John Flagg, E.J. Prescott, Inc.

Much of America's drinking water infrastructure is nearing the end of its useful life. Additionally, population growth has driven the demand for new sources of clean drinking water. As costs rise, the need for the education has never been more critical for our drinking water operations.

FEATURED PRESENTATIONS

GEOGRAPHIC INFORMATION SYSTEMS AND SMART CITY TECHNOLOGIES

Nicholas Bates, E.J. Prescott, Inc.; Gardiner, ME

AUTOMATIC METERING INFRASTRUCTURE TECHNOLOGY INDUSTRY UPDATE

AMR/AMI Solutions Specialist(s), E.J. Prescott, Inc.; Gardiner, ME

TREATMENT PLANT DESIGN AND THREE DIMENSIONAL MODELING

Josh Cody, Quality Water Products; South Barre, MA

FLANGE AND GROOVED PIPE FOR TREATMENT PLANTS

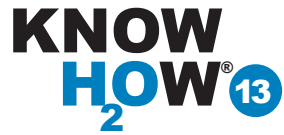

Derek Session, Quality Water Products; South Barre, MA

TRACING AND LOCATING YOUR PIPE

Jeff Pinkowski, Copperhead Industries; Monticello, MN

PLANS, SPECIFICATIONS AND PROJECT MANAGEMENT

Joe Hersom, E.J. Prescott, Inc.; Gardiner, ME

A message from Peter E. Prescott...

When my father started our company in 1955, there were certainly plenty of challenges facing the industry, but today we face extremely serious issues and they require our immediate attention.

World population is growing at rates never seen in human history. Demand for water is increasing making our job of managing the global water supply extremely important. In many areas underground water sources are being depleted and millions of people around the world lack access to clean water.

Improvements and upgrades to our water infrastructure are urgently needed. In a 2013 report the Environmental Protection Agency (EPA) estimated that the United States would require \$200 billion on water systems over the next 20 years with nearly half of that needed for water loss control. Water loss is something my father took very seriously when he planted the seeds of our Quality, Conservation, Revenue (QCR) program in 1968.

As we look to the future, our commitment to education is stronger than ever. In 2020 we will present our Know H₂OW® Educational Seminars for the 13th consecutive year. I hope you will take the time to attend one of our seminars and increase your knowledge and understanding of rapidly evolving technology. There is much work to do and not a moment to lose.

Sincerely,

Peter E. Prescott
Chief Executive Officer
Everett J. Prescott, Inc.
