

# Polarcirkel Sport

The Polarcirkel Sport models are used for water sports, fishing and other leisure activities.

The Sport models are also offered with a removable cockpit enclosure (canvas) for windy or rainy days.

## Extreme leisure boats for all weather conditions!

You can't always rely on blue sky and sunshine when you want to relax on the water with your family or go water skiing or fishing. With this in mind, it's best to go for the most rugged boat on the market, designed to handle any weather conditions you encounter. The Polarcirkel Sport is virtually maintenance free, so you can enjoy your time on the water when others are spending their's on maintenance and repairs. These robust, open sport boats offer great design, quality build, unique flexibility, user-friendliness and low maintenance. They are built on the same terms as Polarcirkel professional boats, which are used by police departments, fish farms and diving companies. They are so powerful and resistant to wear and tear that you can beach them almost anywhere.

The boats are self bailing and in contrast to conventional RIB's have rigid pontoons filled with polystyrene. This, combined with a 21° V-shaped hull, makes a virtually unsinkable boat with unique stability and excellent seaworthiness. We wish you an exciting ride, anytime, anywhere.

## Polarcirkel Sport

Smart details such as sloping pontoons with integrated steps and handgrip, make it easier to get back onboard from the water.

The windshield has a smart wiper system and a centered door access to the foredeck.

The boats can be customised to meet a wide range of demands. A perfect solution for tours and large groups.

AKVA group is the world's largest supplier of aquaculture technology, promoting well known brand names such as: Wavemaster, Polarcirkel, Fishtalk and Akvasmart.

Polarcirkel boats are made of polyethylene, a very strong and flexible material suitable for all weather conditions, from the arctic to the tropics.

Polarcirkel boats are maintenance free and virtually unsinkable, a 21° V-shaped hull makes them highly stable.

Smart built-in seats in front.

Cabin with 2 seats and an extra bench.

Yamaha engines with HPS up to 200hp.
