

Polarcirkel Diving

Polarcirkel 785 Diving with mobile saddles in front of the steering console.

Polarcirkel Diving boats are tailor-made and designed in close consultation with active divers, professionals and sport divers.

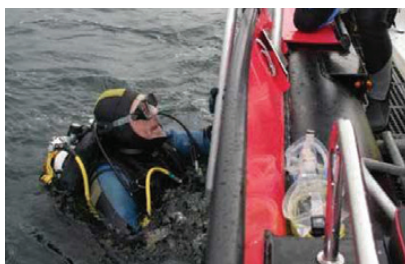

The hinged gunwale on the Polarcirkel Diving model gives easy access to and from the water.

Divers' best choice for safe and exiting adventures!

As a diver you need to have complete trust in your equipment. The Polarcirkel Diving model is the most robust open boat ever produced. It offers great design, top quality materials, user friendliness and low maintenance. In contrast to conventional RIB's, Polarcirkel boats have rigid pontoons filled with expanded polystyrene and combined with strong rigid 21 degree, V-shaped hulls. They are virtually unsinkable with unique stability and excellent seaworthiness.

These boats can take a rough landing or beaching virtually anywhere without serious damage. The boat is self bailing, and the deck is fitted with soft, non-skid rubber matting, which compared to other boats is more practical for diving equipment. With speeds of up to 40 knots, and great load capacity the Polarcirkel boat will take you quickly and safely to and from your diving areas.

Polarcirkel Diving

Polarcirkel Diving boats are used by, professional diving companies and are also very popular among sport divers.

The boats can be flexible equipped, such as mobile saddles for transport of tourists and other larger groups.

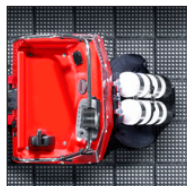

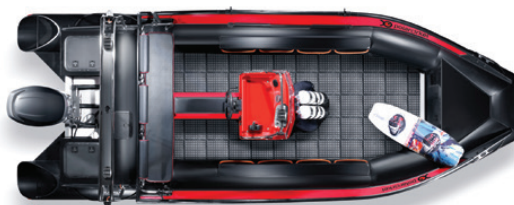

Smart details such as sloping pontoons with integrated steps, makes it easier to get back onboard from the water.

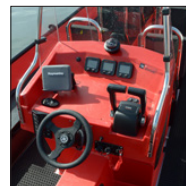

AKVA group is the world's largest supplier of aquaculture technology, promoting well known brand names such as: Wavemaster, Polarcirkel, Fishtalk and Akvasmart.

Polarcirkel boats are maintenance free and highly stable.

Polarcirkel boats are made of polyethylene, a very strong and flexible material suitable for all weather conditions, from the arctic to the tropics.

Soft, non-skid decking.

Tailor made steering console with saddle.

Can be offered with single or double engines.

Polarcirkel Diving, standard equipment:

- 4 pcs mooring cleats
- 2 pcs lifting points
- Stowing space in bow
- Extra protective hull strips
- Self bailing deck
- Fuel tank 103 or 210 litres
- Fuel gauge
- Fuel filter / water separator
- Battery compartment under bench
- Fender strips along pontoons
- Seat with stowage place
- Guard rails around aft and forward bench seats
- Red gunwales
- Manual bilge pump
- Fire extinguisher
- Built-in steps in aft pontoons
- Seats along pontoons
- CE approved, category C
- Non skid rubber deck
- Hinged gunwale for easy access to/from water, L= 1,5m
- Hydraulic steering control
- Centered steering console with windscreen inside aluminium grab rail
- Saddle with cushion
- Antenna arch with nav-lights

Optional equipment:

Bow platform with pulpits, dive tank rack, diving ladder, marine electronics, radio/CD etc.
