fishtalk™

FISHTALK FINANCE

Ties the biological and economic figures together.

Fishtalk Finance in combination with Fishtalk Control allows you to:

- Import costs, accounts and cost centres from external accounting system
- Distribute costs based on biology
- Calculates production costs and the value of the fish

Fishtalk Finance in combination with Fishtalk Plan allows you to:

- Import cost forecasts from external files or systems
- Make budgets and rolling forecasts

Reporting in Fishtalk Finance allows you to:

- Report across biology and economy
- Assess the effects of various forecasts
- Compare different scenarios of different budgets
- Compare actual figures with planned figures
