

## Light Aircraft - Pleasure & Business

### Providing peace of mind when you take to the skies.

The range of light general aviation airplanes available to pilots today is amazingly diverse; from small sport and recreation airplanes to sophisticated, high-performance machines taking businesses to new heights. Since 1983, Old Republic Aerospace, Inc. (ORAE) has been a leader in providing peace of mind to owners and operators of pleasure and business aircraft by protecting both their property interests in the airplane and the potential liability to their passengers and the public.

### New PB500 policy form.

ORAE recently introduced a new insurance policy, the PB500, for piston Pleasure & Business aircraft owners and operators. This new policy is designed not only to be broad in coverage, which is more commonly found only on turbine aircraft policies, it is easy to read in a modern, plain language format.

### Our dedication to service.

While much has changed in the aviation industry, our goal has remained the same; to deliver the highest level of security, stability and service to our clients. If an accident should occur, our clients will value having our in-house claims team immediately at their side.

Our dedication to service begins upon the initial contact with an aviation insurance broker. ORAE was one of the early adapters of Internet technology in the aviation insurance arena by providing an online quoting tool to agents. Our brokers and clients are now utilizing our 3<sup>rd</sup> Generation Online System (G3 OLS), which delivers instantaneous turn around of insurance quotations, requests for policy issuance and production of certificates of insurance that may be needed by a lender or an airport.

Our products cover a wide variety of piston powered, fixed-wing aircraft including:

- Conventional gear (tailwheel) aircraft
- Single engine tri-gear aircraft – fixed and retractable
- High-performance single engine aircraft – fixed and retractable
- Pressurized single engine aircraft
- Multi-engine aircraft
- Cabin class (pressurized) multi-engine aircraft
- Sea planes – straight float and amphibious
- Special light sport aircraft

*Insuring New Horizons<sup>SM</sup>*

*Few insurance providers can match ORAE's experience and commitment to the aviation marketplace.*

In addition to hull, liability and medical expense coverages, we offer a broad array of contingent coverages including use of non-owned aircraft, hurricane relocation expense reimbursement, search and rescue, runway foaming, extra expense for renting a replacement aircraft when the covered aircraft is damaged and much more.

# Old Republic Aerospace - Premier Product Offerings

## Business Aircraft / Corporate Aviation

Old Republic Aerospace can provide an extensive set of aircraft liability and physical damage coverages for today's general aviation aircraft. Aircraft physical damage limits up to \$35 million and liability limits of up to \$300 million are available for qualified accounts. Coverages can be combined to match an insured's unique set of risks.

## Commercial Aviation

We offer insurance plans for a wide range of commercial aviation businesses including UAS operations, privately owned airports, MROs, FBOs, charter operators, university flight programs aerial photography, sight-seeing, aircraft repair and service and fueling operations just to name a few.

## Workers' Compensation

Our highly skilled, in-house workers' compensation team provides comprehensive workers' compensation coverage and claims service to a wide variety of aviation-related operations. Program offerings include guaranteed cost and loss sensitive programs, repatriation expense for foreign travel, sliding scale dividend programs and the NBAA Workers' Compensation Insurance Program - exclusively for NBAA members.

## Manufactured Products

We can offer an aviation manufactured products liability policy protecting a manufacturer against third party legal liability arising from physical damage or bodily injury as a result of an alleged aviation product failure or defect. Liability limits are available up to \$100 million CSL including property damage, bodily injury and grounding liability.

## Airlines

The Old Republic Aerospace in-house underwriting and claim experts are highly trained, experienced and well positioned to serve the airline industry. We offer a comprehensive range of products and services for all airline operations.

## Airports and Government Entities

Our airport and government entity team has the expertise to underwrite comprehensive and competitively priced products. We provide specialized industry-specific products and services for commercial and general aviation airport operators and government/ municipal aircraft (fixed-wing and rotor-wing).

## Agricultural Aviation

We can provide a full array of aircraft physical damage and liability coverages designed for aerial applicators operating piston or turbine powered aircraft, fixed-wing or rotor-wing. In addition, we offer an agricultural aviation policy form - a broad, updated policy form for aerial applicator coverage.

## Light Aircraft / Pleasure & Business

In addition to Hull, Liability and Medical Expense coverages, we offer a broad array of contingent coverages for light aircraft including use of non-owned aircraft, hurricane relocation expense reimbursement, search and rescue, runway foaming, extra expense for renting a replacement aircraft and much more.

## Specialized Claims Services

Our dedicated, in-house claims specialists have extensive experience in managing all facets and types of aviation claims. It is our mission to act with the utmost professionalism while serving to protect the interests and integrity of our clients by promptly and fairly resolving claims. We strive to maintain and enhance the public's impression of our policyholders, permitting our clients to return to their normal operations as rapidly and seamlessly as possible.

## Risk Control Services

We assist our clients in mitigating the frequency and severity of losses through risk control, a comprehensive service provided by Old Republic Aerospace. Our in-house risk control professionals help our clients improve safety, reduce risk exposures, control loss costs and facilitate programs to enhance operational performance.
