

Craig Benn
Executive Vice President
Workers' Compensation Underwriting

June 13, 2017

To Our Valued Producers:

All NBAA members are eligible for the association's Workers' Compensation Insurance Program, which offers aviation workers' compensation coverage at an attractive rate, as well as the opportunity to earn a cash dividend.

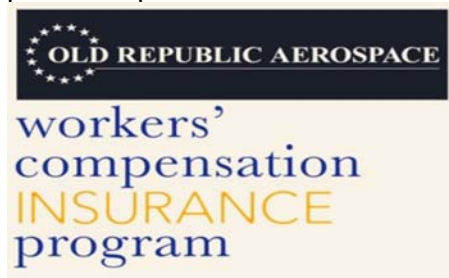

In February 2017, dividends in excess of \$600,000 were paid in association with prior program years. Members in the program have received over \$3.6 million in dividends since the program's inception in 2009.

The program, which is underwritten by Old Republic Aerospace, was launched to provide NBAA members with cost-effective insurance solutions, tailored specifically to the needs of aviation businesses.

Policies cover employees involved with the company's aviation operations, including but not limited to pilots, maintenance technicians, flight attendants, schedulers, dispatchers and administrative personnel. There are also options for companies using contract pilots, contract flight attendants and other contract crew.

Member companies interested in participating in the program can learn more at www.nbaa.org/workers-comp or please contact Nick Davies, Executive Underwriter/Workers' Compensation, at 678.569.2238 or ndavies@oraero.com.

Also, please take a moment to click the image below and turn the volume up, to view our exciting new video in partnership with the NBAA!

*Dividends are declared by Old Republic International Corp.'s Board of Directors and are dependent upon the NBAA group loss experience and therefore are not guaranteed. Past dividends should not be considered as an indicator of future performance.

Sincerely,

www.OldRepublicAerospace.com
