

Easter Egg

SCAVENGER HUNT

Cut out the enclosed clues and place each one into a plastic egg.

Follow the clues to hide the eggs around your home, but remember that each clue precedes the location that is mentioned. In other words, don't hide the bed clue in the bed egg.

The very first egg is handed to your little detective to kick off the race!

P.S. Save the goodie-filled golden egg for last!

Ready....set...happy hunting!
