EDUCATES & ENTERTAINS BOTH PATIENTS & VISITORS

SMART TECH

Compatible with nurses call systems

"LG Commercial Displays for health care are designed for efficient implementation and are compatible with all nurse call systems."
 Senior Executive, Medium Enterprise Health Care Company

Interactive patient care

A medium enterprise health care company improved clinical workflows through contextual patient event notifications, improved communications among staff members, improved communications among patients, improved communications among visitors, and improved response times when implemented in conjunction with the TeleHealth SmarTigr solution with LG Commercial Displays.
 Senior Executive, Medium Enterprise Health Care Company

51% to 100%

of healthcare users of LG Commercial Displays say employee productivity has IMPROVED!

Secure sensitive data

A small business health care company purchased LG Commercial Displays to meet compliance regulations, to secure sensitive data, and to support business growth expectations.
 Consultant, Small Business Health Care Company

GROWTH

"LG Commercial Displays for healthcare are an investment in improving patient and guest satisfaction, especially when complimented with rich HD content offerings and an interactive patient care system. LG provides a larger, high quality television experience. We've found that patients are less likely to be distracted and interrupt a clinician's workflow with issues not relating to their clinical care. We have enjoyed a strong relationship with LG and the opportunity to provide valuable product design and quality feedback."
 Senior Executive, Medium Enterprise Health Care Company

COMPLIANT

Aceso Interactive, Inc. purchased LG Commercial Displays to meet compliance regulations, to support business growth expectations, and implement smart technology.

Todd Babineau, COO, Aceso Interactive, Inc.
